THE TARIFF ON IRON.

It is not often that so much truth and hard and rugged common sense and sound logic is found compressed into as little compass, as in the following, which we copy from the *Railroad Record*:

"Let us suppose for a moment, the tariff on pig and railway iron should be reduced to such a point that it would react on that department of industry in our own country and stop production. What would be the result? Why simply this, the cost of pig and railway iron would for the moment be reduced equivalent to the amount taken off from the tariff, but as soon as the English market felt the rebound of increased orders, the effect would be different. The price would go up, perhaps to or above the present figure. How then would the account current stand with American industry? Factories stopped—mines closed—skilled labor scattered, and employed in other pursuits—gold or obligations to pay for the entire amount of iron imported sent abroad, instead of being retained at home—home market for the products of the farm destroyed and forced to seek a foreign outlet—capital in factories and mines sunk—and eventual bankruptcy and ruin. All for what?—a mere temporary reduction in price, to continue just long enough to destroy our own factories and then, with the increased demand on the foreign manufactures and the absence of the competition of American production, up goes the price. What have we gained—nothing; not even the good will of the Britishers, for this course will soon make us unable to pay for what we would want to buy, and there is no one in the world has such a contempt for a "poor cuss" as these very English. If it is asked what have we as a nation lost, we will repeat—factories stopped—mines closed—skilled labor—invested capital destroyed—gold paid out—and a great general debt contracted that will require us to pawn our energies for another generation to cancel. Keep on the tariff—encourage home industry—don't disturb the internal revenue law nor do anything to cripple our ability to pay it—get out of debt as soon as possible, and let us make more rapid strides in the development of national resources and progress."

Bonaparte and Victor Noir.

We print the other side of the story as told in Rochefort's journal:

On the 10th of January, 1870, at 1 o'clock, Victor Noir and myself repaired to the residence of Prince Pierre Bonaparte, No. 59 Rue d'Antueil. We were commissioned by M. Paschal Grousset to demand of Pierre Bonaparte the reason for injurious articles against M. Paschal Grousset, published in *L'Avenir de la Corse*. We handed our cards to two servants, who stood at the door, and who ushered us into a small parlor on the ground floor at our right hand. After a few minutes we were conducted up stairs to the first floor, passed through a fencing room and finally entered a drawing room.

A door opened and M. Pierre Bonaparte entered. We advanced towards him and the following words passed between us:

"Sir, we come on behalf of M. Paschal Grousset, to deliver a letter to you."

"You are not come, then, on behalf of M. Rochefort, and you are not tools of his?"

"Sir, we are here on other business, and I beg you to look at this letter."

I handed him the letter. He approached a window to read it. He read it, and after crushing it in his hands he returned towards us.

"I have provoked M. Rochefort," said he, "because he is the standard bearer of the rabble; as for M. Grousset, I have no reply to make to him. Are you the representatives of these carrion? (*ces charognes*.")

"Sir," I answered, "we come to fulfill loyally and courteously the commission entrusted to us by our friend."

"Are you the representatives of these wretches?"

Victor Noir replied: "We are the representatives of our friends."

Then suddenly advancing a step, and without provocation on our part, Prince Bonaparte slapped Victor Noir with his left hand, and at the same time drew a revolver of six chambers, which he had held concealed in his pocket, already cocked, and fired upon Noir, with the muzzle of the pistol close to him. Noir staggered, pressed both hands on his breast, and sank down in the doorway by which we had entered. The cowardly assassin then turned upon me and fired. I then siezed a small pistol, which I had in my pocket, and while I was endeavoring to free it from the sheath, the wretch rushed upon me, but when he saw I was armed, he retreated, stood behind the door and aimed at me; it was then that, comprehending the ambush into which we had fallen, and reflecting that if I fired there would be not wanting those who would say that we had been the aggressors, I opened a door which was behind me and rushed out, crying "Murder;" as I went out a second shot followed and again passed through my coat. In the street I found Noir, who had had strength to descend the stairs, and who was dead. These are the facts, just as they transpired.

ULRIC DE FONVIELLE.

Agricultural Report for 1870.

The crop produce of Pennsylvania, in 1868, was as follows:

Indian Corn—31,970,000 bushels. Number of acres, 913,685. Average per acre, 35 bushels. Value per bushel, $1,00. Total value, $31,979,000.

Wheat—15,300,000 bushels. Acres, 1,195,311. Average per acre, 12.8 bushels. Value per bushel $1,00. Total value, $30,294,000.

Rye—6,558,000 bushels. Acres, 496,818. Average, 14.2. Value per bushel, $1,32. Total value, $8,656,560.

Oats—55,108,000 bushels. Acres, 1,982,302. Average, 27.8. Value per bushel, 64 cents. Total value, $35,269,120.

Barley—590,000 bushels. Acres, 27,570. Average 21.3. Value per bushel, $1,64. Total value, $967,600.

Buckwheat—8,224,000 bushels. Acres, 498,424. Average, 16.5. Value per bushel, $1 09. Total value. $8,964,160.

Potatoes—11,852,000 bushels. Acres, 135,681. Average, 88. Value per bushel, 93 cents. Total value $11,022,360.

Tobacco—4,617,000 pounds. Acres, 5,596. Average, 825. Value per pound, 8 cents. Total value, $369,360.

Hay—2,448,000 tons. Acres, 1,813,333. Average, 1.35. Value per ton, $16 00. Total value, $39,168,000.

It will be seen that the hay crop is the most valuable raised in the State, the oats crop next to it, and that the corn crop exceeds the wheat crop in value $1,685,000.—*Telegraph*.

The aggregate of the corn crop in the whole country exceeds that of last year, and the quality is good. A reduction of seventeen per cent. is indicated in Illinois. In the center of corn-growing—Illinois, Indiana and Ohio—the wet spring and cool summer delayed the ripening, and though there were no severe early frosts, the freezing weather in October found much of the crop imperfectly matured. In Michigan, Wisconsin, Minnesota and Iowa, the reduction in quality was still greater, as also the quantity per acre; in the latter two, the increase of acreage, the result of immigration, and the making of new farms, will nearly neutralize the diminution of yield, and make the aggregate production about equal to that of last year, and in the case of Minnesota make a small increase.

The only States reporting an increase of quantity are Minnesota, Missouri, Florida, Nebraska, Kansas, Texas and California. Louisiana and Iowa give nearly an average. The principal corn-growing section of the West will average a reduction of fully twenty per cent. in yield per acre. With all the increase of farmers to produce, and population to consume, and with an actual enlargement of area under culture, it is certain that there is actually less corn produced this year than in 1868.

ZANESVILLE.

The Week of Prayer—Public Officer Charged With Murder—Manufacturing Enterprises—The Tariff—The Pike Question, &c., &c.

(From our own Correspondent.)

ZANESVILLE, January 12, 1869.

Almost a dearth of news in this city for some weeks. The holidays passed off very quietly, and now we are all proceeding on the voyage of the new year. Last week was the week of prayer, and was duly observed in the churches of Zanesville.

Although the Grand Jury found no bill against any one for the killing of Samuel Lee, the colored keeper of a saloon, about two months since, it appears that the matter has not been entirely forgotten, and his widow, believing doubtless that somebody killed her husband, on last Saturday filed an affidavit before Justice Phillips, charging the Marshal and two of his police with the killing of the said Samuel Lee. They were arrested to day, waived an examination, and gave bail in the sum of five thousand dollars each for their appearance at the next term of Court. What new facts will be adduced on the trial are not now before the public. It is likely that some persons who paid Sam. Lee to be the degraded man that he was may be unearthed and become known to the public in their true characters.

I hear of two manufacturing enterprises in this community which may be put into operation the coming summer, should our tinkerers on the tariff not put a stop to them by a too great reduction of the duties on their products. This community is identical with your Iron city in interest, and if your manufacturies that have been in operation need to be protected by duties on foreign importations, Zanesville much more, because her resources are yet undeveloped, and because capital for operating is not so abundant here as in Pittsburgh. I am gratified that iron manufacturers are moving everywhere to oppose any reduction of tariff on iron, pig, bar and blown, as well as upon that worked up into into bars and nails. The discrimination of the New York *Tribune* cannot yet be adopted, and if we are to adopt free trade, by the reduction of the price of labor, I for one will hope that it will not be done, at least to any very material extent. The wages of the mechanic have much to do with the prosperity of the country. This county ought to have in operation a dozen of furnaces, and with a proper protective duty on iron, it will have them in operation; but if there is to be a tariff on the *sliding scale*—sliding up and then sliding down every few years, men of capital will avoid all enterprises affected by such a *sliding* policy.

The Pike question has been agitated considerably in some parts of the county, owing to the fact that during the winter it is difficult for farmers to get their produce to market. But the County Commissioners hesitate, and seem to debate whether there ought to be Pikes. With a slight increase of taxes, or a reduction of taxes and no Pikes, the Board are not apparently decided which will be the most popular course for them to take.

Wheat and flour command a steady price; no variation of any account for several months. The mills seem to be doing a fair business. Pork is dull and a trifle lower. Corn at wholesale in the city is sixty-five cents.

The President of the Pittsburgh and Columbus Railroad and the purchaser of the Zanesville and Cincinnati Road, has passed over the line of the latter road, and we are informed that as soon as spring opens there will be a commencement of work connecting the two between Zanesville and Dresden. This will have a tendency to enspirit business men and eterprises generally.

The cold snap which has been experienced here for some days has been broken in upon by an afternoon rain, dispelling the hopes of the ice men that they were about to fill their houses for the summer's use. Last year the ice was abundant and fine, and all put up two weeks before this time. Every thaw during this month will tend to quash the hopes about ice. Boats have net passed up or down the Muskingum for a few days owing to ice in the canal and locks. More anon.

OHIO NEWS.

OHIO has nineteen Republican daily newspapers and four Democratic dailies.

IT is said that old coffin nails are sold for fifty cents apiece in Dayton, the purchasers believing that they will cure the toothache, earache and headache.

THE Ohio Penitentiary is well patronized at present, the whole number being 1,014. The gentle sex has but thirty-eight representatives in that institution.

TWENTY THREE thousand nine hundred and ten persons were joined in wedlock, one thousand and three loosed therefrom, in the State of Ohio during the year 1869. Of "little visitors," there is a total of 30,150, and of travelers to the "far off land," 15,159.

THERE has been built in the State of Ohio, in the ten years last past, not less than 100,000 new structures of all kinds; a great many new farms; a great many miles of railroad, etc. Thus the whole value of property in Ohio, in the year 1870, will be $1,728,000,000. The State of Ohio contains a little over *one fourteenth* of the population, and we may safely assume, of the wealth of the United States. According to this mode of calculation the whole wealth of this country will be represented by $24,196,000,000.

THE Ripley (Ohio) *Bee* of the 5th has the following: Those who were up on last Monday morning, about two hours before daylight, were witnesses of a strange and startling phenomenon in the heavens. A very large, fiery red ball came up in the northeast, and passing to the southwest disappeared. When it reached nearly overhead it assumed a purple hue. The light which emanated from it was so great as to waken quite a number. Those who saw it describe the ball as being very large, and the sight grand beyond anything they ever witnessed.

GENERAL NEWS.

SECRETARY BOUTWELL approves of the bill reported by Senator Sherman, increasing the national bank circulation $45,000,000, and retiring the same amount of three per cent. certificates, and also the section in the bill allowing national banks to be established on a gold basis.

THE Virginia bill reported by the Reconstruction Committee in the House is a compromise in its character, and will probably pass both Houses. It is acceptable to both wings of the Republicans in the House, and while it is not quite as liberal as they desired, it is so much better than they expected that the Virginia Legislative Committee of Nine, now here, fully endorse it. The oath presented in the bill will exclude but a single member of the Legislature.

THE income tax, under the present law, will be levied on March first, 1870, upon the gains, profits and income of the year ending December 31st, 1869. The reading of the law of March 2d, 1867, supports this construction. Commissioner Delano has, it is stated, notified the Assessors of Internal Revenue to call a convention of the Assistant Assessors of their districts, to devise the most efficient method of assessing incomes, and to profit by the general experience of their fellow officers.

OF THE last New York scandal it is said that Miss Johnson was not merely passive in the hands of her clergyman. but that on the contrary, she did her part to allure and entice, is convincingly proven. One time she addressed a note to her pastor expressing her disappointment at his failure to fulfill an engagement which he had made with her, and said if he would send his son Baldwin to play chess with her she would be satisfied. Mr. Cook told his wife that he was about to elope with a young lady, and when they had made their escape she would be surprised at the choice he had made.

STATE ITEMS.

OIL CITY is to have a new Opera House.

TRACK laying is progressing on the Wilmington and Reading Railroad.

MRS. JEMIMA GARRIS, of South Eaton, aged twenty-two years, was burned to death by a large explosion last week.

JOSEPH W. MOORHEAD, Esq., of Ligioner, recently sold a calf eight months old, which weighed 800 pounds.

THE proposed new county is to be called "Benzine," because, we suppose, so many members have been seen in its behalf.

SEVENTY ONE thousand nine hundred and sixteen letters were forwarded from the Pottstown postoffice, during the past six months.

JAMES M. SWANK has transferred the *Cambria Tribune* to his brother, George T. Swank, who has consolidated it with his job office.

CARLISLE has the scarlet and velocipede fever. The former is carrying away many little children; the other the wits of the young men.

THE Rev. Wm. Howell Taylor, formerly of Titusville, has been installed pastor of the Presbyterian Church at Greenpoint, L. I.

EMANUEL C. REIGART, of Lancaster, Pennsylvania, who died recently, aged 74 years, first nominated the Hon. Thaddeus Stevens for Congress.

THE annual meeting of the Editorial Association of Pennsylvania will be held in Harrisburg on Thursday, January 27th, at 2 o'clock in the afternoon.

SETH T. HURD, Esq., in a series of articles on "Errors of Speech" in the Brownsville *Clipper*, is furnishing matter which should go into book form for general circulation.

SOME fiend put a quantity of arsenic in the pump spout of Mr. Eph. Yorgey's residence at Montgomery. The result was a whole family were dangerously poisoned by the morning coffee.

THE Reading *Dispatch* claims that Reading has prettier girls than any other city in the country. Bosh! The editor was never in Pittsburgh or Allegheny to see our steel blondes and iron brunettes.

MR. J. C. LOBINGER, of Mt. Pleasant township, Westmoreland county, one day last week killed a hog, which weighed six hundred and thirty-six pounds clean meat. Can Franklin township beat this?

A MAN named Mowry, a provision dealer in Warren, committed suicide by shooting himself through the head with a revolver on Monday last. Financial trouble, it is supposed, was the cause of his self-destruction.

GEORGE MEASON, Esq., died at his residence in New Haven, Fayette county, on Sunday, at the advanced age of eighty-seven years. He was followed to his last resting place on Tuesday by a large concourse of people.

THE Zahiser school house in Lake, Mercer county was burned down. The citizens in that section express themselves confident that it was set on fire purposely. This is the second school house that has been fired within the past two weeks in that county.

GEO. COON, an old and highly respected citizen of Pymatuning, Mercer county, died very suddenly on the third instant. He was riding along the road on horseback, accompanied by his son, when he fell from his horse insensible, and expired almost immediately.

THE new blast furnace of Kimberly & Co., at Sharon, is being rapidly pushed forward toward completion. The stack and engine houses are completed, and the men are now busy working on the stack. The buildings are intended for two furnaces, but only one will be built at present.

STEPHEN OLNEY, of Warren, died last Monday in the seventy-ninth year of his age. He was one of the oldest settlers of Warren county. He was one of the eleven old soldiers of 1812 who met in convention last summer in Warren, and passed resolutions asking Congress to take measures immediately for their relief.

A LITTLE boy named Jones, on returning from school one evening last week, fell into the canal at Birdsboro, below Reading, and was drowned. The little fellow's fate was uncertian for a day or two, but his books floating on the canal, led to the belief that his body was in the water, and search proved the apprehension to be true.

ONE day last week, as some men were engaged at work on Jones's Contract, near Mineral Point, on the Pittsburgh and Connellsville Railroad, a blast exploded prematurely, killing two men and injuring two more. One man was blown up in the air about fifty feet, and alighted sixty feet from the place where the accident occurred. The deceased were Canadians.

THREE sudden deaths in Mercer county are reported within two weeks. Mr. John De France, aged between seventy and eighty, while dressing for church, on the 26th ult., fell from his chair and expired almost immediately. Mr. Koon, of Pymatuning township, while returning from a visit to his son on the 3d inst., fell from his horse and died instantly. Mr. Peter Barnes, of Greenville, while visiting his barn on New Year's night, fell dead. All of these deaths are said to have been caused by apoplexy.

BRIEF TELEGRAMS.

—Parties at St. Cloud, from Pembina and Ft. Garry, report the situation unchanged.

After the occupants of the house had retired for the night, some unknown parties entered and shot Fanny Collins mortally, Ettie Baldwin seriously, and George Gardner fatally, while in their beds.

SECOND EDITION.

FOUR O'CLOCK, A. M.

FORTY-FIRST CONGRESS.

(SECOND SESSION.)

The Franking Privilege—Manufacture of Pig Iron—California Whisky Seizure—Virginia Admission Considered in Both Houses.

By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, January 14, 1870.

SENATE.

FRANKING PRIVILEGE, &C.

Mr. WILLEY introduced a bill to abolish the franking privilege and establish a letter-carrying system in cities of 5,000 inhabitants. Referred to Committee on Postoffices.

PIG IRON.

Mr. SCOTT offered a resolution requesting the Secretary of the Treasury to communicate to the Senate the information or date upon which the Special Commissioner of Revenue had based his statements relating to the average cost of the manufacture of American pig iron in the Valley of the Cumberland and anthracite region of Pennsylvania.

WHISKY CASE.

Mr. COLE addressed the Senate in explanation of the joint resolution previously introduced by him, setting forth the seizure in San Francisco last August of 4,000 barrels of distilled spirits shipped from New York, the probability of their release by Internal Revenue authorities in Washington upon alleged representations of the owners, and instructing the Commissoner of Internal Revenue to hold the said spirits subject to determination by the United States Courts.

Mr. HAMLIN said that under the law creating the office of Commissioner of Internal Revenue, that officer had a right to determine all questions of seizures of this kind, and under that law any party dissatisfied had a right to appeal to the Secretary of the Treasury.

The discussion was further continued by Messrs. Sherman, Cole and Casserly without action.

THE VIRGINIA ADMISSION BILL.

On motion the Virginia bill was taken up, the question being on Mr. Edmunds' amendment, offered yesterday.

Mr. CONKLING spoke against it.

HOUSE OF REPRESENTATIVES.

VIRGINIA BILL.

The bill for the admission of the State of Virginia to representation in Congress was taken up.

Mr. FITCH expressed regret that Virginia had not been admitted to political equality in the Union at the same time as Georgia. He believed it would have been better for the country and for the Republican party. He was quite convinced that no act could be done so hurtful to the Republican party, so injurious to the best interests of the whole country, and so especially damaging to the speedy and honest reconstruction of the South, as to exact now from Virginia any other conditions than those prescribed by the act of April last.

Mr. UPSON, a member of the Reconstruction Committee, said he had concurred in reporting the bill from the Committee, and that he would vote for its passage, because he believed all its provisions were necessary, reasonable and just.

Mr. HAWLEY supported the bill, and would even exact further conditions from Virginia, if his vote could secure them.

Mr. ASPER said he had originally been in favor of admitting Virginia without conditions, but he was now induced to believe that the interests and liberties of the whole people of the State were not safe if she were admitted without conditions. He would support this bill, and if the conditions were struck out, he would vote against the admission of Virginia.

Mr. WARD, a member of the Reconstruction Committee, referred to the course of Mr. Farnsworth, who had been detailed as the organ of the Committee to present the bill to the House. He was surprised to hear of the opposition made by that gentleman to the provisions imposing an oath on State officers. The Committee had reported the bill in good faith, with the understanding that the gentleman from Illinois should defend it in the House. If that gentleman could not consistently do so, he should have passed it over to some other gentleman on the Committee, for instance Mr. Beman, who would have defended it and pressed it to a vote.

Mr. FARNSWORTH said he had pressed in the House the course he had intimated in the Committee that he should pursue. It seemed to him the members of the Committee who had thus far addressed the House, except Mr. Upson, had not advocated the bill as much as he had.

Mr. WARD denied all recollection of Mr. Farnsworth saying he should oppose in the House the provision imposing the oath on the State officers. He had understood him to say he would support the bill. With that understanding he was upheld by all his Republican colleagues on the Committee. Otherwise the gentleman, Mr. Farnsworth, would not have had charge of the bill. Individually, he said he was opposed to the admission of Virginia under Governor Walker. He was opposed to the admission of any State presenting herself with a Republican figure head, but with rebel backbone, heels or head like Senter, Jack Hamilton or Walker. But they were either to take this bill, or have Virginia admitted unconditionally. He therefore held it to be the duty of every Union member of radical tendencies, who wished to defeat the combination of Democrats and Conservatives, to support this measure as the only measure that could be got and as the only guaranty that could be secured with reference to Virginia.

The debate was continued by Messrs. Burdett, Stevenson and Cobb in support of the bill, and Messrs Hoar and Winchester against it; Stiles and Logan for the unconditional restoration of the State under Mr. Bingham's amendment, and Mr. Bingham in support of said amendment. The latter accorded the authorship thereof to Mr. Farnsworth, and said the issue before the House involved directly the question whether in future the Government was to have control in vassal States as well as over vassal citizens. If forced to vote on the question whether Virginia, the mother of States, statesmen and heroes, should be represented in Congress, he would say, let the State come in and let those who have undertaken to put fetters on her in violation of the Constitution stand responsible.

Mr. COX opposed and Mr. SCHOFIELD supported the bill.

Mr. FARNSWORTH closed the debate.

CHICAGO.

Exciting Scene in Court—Silver Palace Sleeping Car Interest Purchased by the Pullman Palace Company.

(By Telegraph to the Pittsburgh Gazette.)

CHICAGO, January 14.—The jury in the case of Dr. Shatford, on trial for murder in producing an abortion on the body of a girl named Theodosia Patterson, last night brought in a verdict of not guilty. On the announcement of the verdict the crowd in attendance broke out in vociferous applause, which took the court some time to suppress. When discharged, several of the jurymen leaped over the railing to shake the doctor's hand. His wife, who was present, indulged in tears. The case has been one of the most exciting ever tried in Chicago.

The Bricklayers' National Convention did nothing of importance to-day.

The store of Mr. Van Velzer, at Neponset, was broken open last night and the safe burst open with gunpowder, and twenty-six hundred dollars stolen. No trace of the burglars.

Excellent authority says the Pullman Palace car Company have purchased the entire interest of the Central Transportation Company, representing the Silver Palace sleeping cars running between Chicago and New York, via Pittsburgh, and the Fort Wayne road and connecting roads.

THE CAPITAL.

The Tariff on Coal—Army Orders.

(By Telegraph to the Pittsburgh Gazette.)

WASHINGTON, D. C., Jan. 14, 1870.

TARIFF ON COAL.

The Committee on Ways and Means to-day refused by a vote of two against six to make bituminous coal free. They rejected a motion for fifty cents per ton by a vote of three against five. The proposition for one dollar per ton was lost by a tie vote. Coal, therefore, remains as now.

ARMY ORDERS.

General orders from headquarters announce that the following regiments will interchange posts during the spring and summer of 1870, viz., 13th infantry with 7th Infantry; 8th Cavalry with 3d. The commanding General of the military division of Missouri, General Sheridan, will give such orders as will accomplish this transfer at the least cost to the United States, and at the least risk to military interests. He will at first cause such part of the Third Cavalry as can be spared to be put in marching order for Arizona as early as the season justifies it, and the remainder in detachments as fast as similar detachments arrive from Arizona.

The commanding General of the military division of the Pacific, General Thomas, will cause as large a part of the Eighth Cavalry as can be spared, to march to New Mexico as early as possible, and the regiment, when the first detachment of the Third Cavalry has reached Arizona.

NEW YORK CITY.

The Stanton Fund—Political Reform—Beecher's Salary—Cook-Johnston Scandal.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, January 14, 1870.

THE STANTON FUND.

The amount subscribed to the Stanton relief fund in this city is about fifty thousand dollars. Collector Grinnell's list contains the names of twenty-three gentlemen who have given one thousand dollars each, and several who have subscribed five hundred dollars apiece. A. T. Stewart's list is not quite so heavy. In Boston sixteen thousand dollars have been raised, and in Philadelphia twenty thousand dollars, making a total in these three cities of about eighty-six thousand dollars. The remaining thirteen thousand dollars will undoubtedly be made up in the west.

POLITICAL REFORM.

The Tammany Reform Protective and Benevolent Association is the name of a new organization, projected by Jacob Cohen and several other citizens desirous of effecting a reform in the politics of the city. Meetings were held in different parts of the city last evening, and active steps taken toward the completion of their organization. Benevolence and reform are their objects.

FURTHER INCREASE.

The Plymouth Church voted last night to increase the salary of the pastor, Rev. Henry Ward Beecher, to $20,000 a year. In the course of a discussion among the leading members the idea was thrown out that this increase is made in consideration of Beecher's advancing years and circumstances; that it is his intention ere long to retire from public life. One member hoped that next year his salary would be fixed at $25,000.

THE RECENT SCANDAL.

It is supposed that the notorious Cooke has been quietly conveyed to an insane asylum. His family have left the parsonage. Miss Johnson is now quite ill, and the principal characters of this painful scandal disappear from view.

TENNESSEE.

The Constitutional Convention.

[By Telegraph to the Pittsburgh Gazette.]

NASHVILLE, January 14.—The Constitutional Convention continued to-day to receive and refer propositions to amend the Constitution, a considerable number of which were submitted, amongst them amendments declaring that all male persons of the proper age, without regard to race or color, citizens of the State, are eligible to office, and conferring the rights of suffrage upon male citizens twenty-one years of age; against State aid to internal improvements; prescribing the manner of prosecuting impeachments and officers liable to be impeached: providing for the election of county judges and defining their jurisdiction in the trial of causes; relative to the jurisdiction of magistrates in civil cases; providing for calling of conventions in future to amend the Constitution; prohibiting the reduction of the Governor's salary below four thousand dollars, the salaries of Supreme Court Judges below four thousand dollars, Circuit Judges and counsel below three thousand dollars per annum.

An additional proposition on the subject of franchise confers the right on all male citizens, white and black, but requires residence in the State two years and county one year next preceding the election and payment of poll tax.

No business has been matured.

THE LEGISLATURE.

The Senate has passed on first reading and referred to the Committees on Finance, Ways and Means the bill which passed the House yesterday, levying a tax of fifty cents on every hundred dollars' worth of taxable property to relieve the State Treasury, and authorizing payment in Bank of Tennessee notes and giving to the tax payer the privilege of compromising by paying one-half of the amount assessed in specie, greenbacks or Comptroller's warrants.

The House reported a resolution from the Senate thanking President Grant for his course in regard to Tennessee, and called up Mr. Caldwell's preamble and resolutions relative to memorializing Congress on the subject of the condition of Tennessee and members of Congress to that body denouncing the State Government.

Mr. Singleton offered an amendment endorsing the administration of President Grant.

Mr. Rhea moved to lay the amendment on the table. Lost—yeas 28, nays 34.

Mr. Hornberger proposed to endorse the Constitutional acts of the Aministration. He was in favor of endorsing such a course; but if this was an indirect censure of other acts, let it be so, as he thought it well deserved, and really in reference to the Fifteenth Amendment.

The whole subject was then after some debate indefinitely postponed.

Mr. Rhea introduced a bill, which passed the first reading, to do justice to the Auditor and tax payers of the State. It provides for funding the outstanding bonds of the State, whether due or not due, upon the condition that the bonds already due be presented to the financial board, consisting of the Governor, Secretary of State, Comptroller and Treasurer, together with satisfactory evidence as to what such bonds cost the present holders in the par funds of the country at time purchased, upon which coupon bonds for the amount of such cost, bearing six per cent., payable semi annually and having twenty years to run, shall be issued to such holders, upon the old bonds being given up for cancellation; that the new coupon bonds shall be cancelled by the holders of the bonds not yet due upon presentation of the latter to the financial board for the amount said new bonds cost the holders; that upon the past due coupons on the old bonds, netting five hundred dollars or more, being surrendered to said financial board, bonds for the amount, having twenty years to run, shall be issued to take up such coupons; also that the holders of the old notes of the Bank of Tennessee may fund them at the rate which they may have cost such holders.

Murders by the Ku-Klux.

[By Telegraph to the Pittsburgh Gazette.]

LOUISVILLE, January 14.—Information has reached here of the murder a few nights ago near Lighton, North Alabama, of Granville A. Pillow and William Pillow, nephews of General Pillow, by a band of masked men, who rode up to the door, called for Granville, and shot him when he appeared. William ran to his brother's assistance, and was shot and killed, and the maskers escaped, leaving no clue to trace them.

THE COURTS.

District Court—Judge Hampton.

FRIDAY, January 14.—The case of John Graser, libellant, and James P. Haigh & Co., intervenors, vs. the steamboat "Colossal, action of libel on the means to recover amount due plaintiffs for repairing the same. On trial.

Common Pleas—Judge Sterrett.

FRIDAY, January 14.—In the case of Duff vs. Merrick, previously reported, the jury found for the plaintiff in the sum of $108 48.

Beckert vs. Schwank, motion and reasons filed for a new trial by defendant's counsel.

Union Iron Mills vs. J. B. Hill et al. Execution attachment. On trial.

Quarter Session—Judge Stowe.

FRIDAY, January 14.—The first case taken up was that of the Commonwealth vs. George McCombs, indicted for "insulting an alderman in the execution of his office," Isaac J. McKinley, prosecutor. The prosecutor is an alderman in the Twentieth ward, and it is alleged that the defendant, McCombs, was a defendant in a civil suit brought before the prosecutor, who rendered a decision against McCombs, whereupon the latter made some insulting remark about the judgment of the alderman. The jury returned a verdict of guilty.

The next case taken up was that of the Commonwealth vs. Edward Lynch, Alderman in the Fifth ward, indicted for misdemeanor in office.

It appears that an information was made before Lynch against Michael Weyenhauser, charging him with selling liquor on Sunday. The action was to recover the penalty of $50 provided for under the act of Assembly for violation of the Sunday liquor law. The case was heard and judgment rendered for the penalty of $50 and costs, which sum, it is alleged, was paid to the Alderman. M. McGonnigle, Secretary to the Board of Guardians of the Poor of Allegheny City, it is alleged, called on Alderman Lynch and requested him to pay over the sum of $25, as provided by act of Assembly, which he has since neglected and refused to do. The Commonwealth proved that the money had been paid to Lynch and produced his receipt for the same. Mr. Coyle, counsel for the defendant, held that the case had not been made out, that it was charged in the indictment that the money had not been paid and was incumbent upon the Commonwealth to prove that fact. Mr. McCormick, counsel for the Commonweath, argued that the Commonwealth was not bound to show that the money had not been paid. The Court charged the jury that if the Commonwealth proved the money in the hands of the defendant it devolved upon him to show that it had been paid over to the parties authorized to receive it within ten days after it came into his hands, in accordance with the act of Assembly. The jury after a brief absence returned a verdict of guilty. Sentence deferred.

The next case taken up was that of the commonwealth vs. Thomas Whitaker, indicted for perjury, Michael Theiken prosecutor. It appears that Whitaker some time since made an information before Alderman Herron, charging Theiken with selling liquor on Sunday for the purpose of recovering the penalty of fifty dollars, in which proceeding it is alleged that Whitaker swore falsely. Whitaker is one of the class of men known as "professional informers." On trial.

PETROLEUM INTELLIGENCE.

NEW STRIKES MADE.

From the Lawrenceburg *Independent* we have the following:

No. 2, on Fox farm, was tubed on the 28th of December. This well is located on the river. We have not yet learned its production, but report says it will prove a good one.

Hartly well, No. 5, Fox farm, is a new well, which commenced pumping about Christmas. It is reported yielding about 40 barrels every twenty-four hours.

No. 11, Fox farm, has been sunk through the third sand, but this well has failed to produce any considerable quantity of oil. It is thought the tubing or valves have not been put into proper working order. We expect to have a better report from the well at an early day.

The Wynona is the name of a well recently sunk on land of J. W. Parker, on the hill, west of the Alpine. The well is represented as producing daily 60 or 65 barrels. It may be safely estimated at a 40 barrel.

The Mary Emma, this is the name of a new well in Lawrenceburg, which has been pumping for several days, makes a splendid start, and can be safely estimated at thirty barrels.

The Morning Star, No. 1, is a new strike at the mouth of Mike's run. It is thought it will prove a good well.

The Herrington well, on Fox farm, adjoining the Orphan well, on the river is a new strike, which is reported as pumping some fifteen barrels daily.

A well has been sunk on Bear Creek, a considerable distance above the mouth of that stream, in Butler county. It has been pumping for several days, and is throwing out a handsome stream of oil.

The Darby well, in Lawrenceburg, has been torpedoed. Heretofore it yielded but five or six barrels daily. Now it produces about fifty barrels per day.

The Barnes and Terrell well is a new strike, south of Church run, on land of Mr. Fullerton Parker, and is said to be producing ten barrels per day.

The Titusville *Herald* says:

A new well was struck on the Niagara Oil Company's tract, Cherrytree run, a few days ago. It is known as No. 16, and produces sixteen barrels daily.

On the tract on Upper Cherry run, near the Independent tract, formerly owned by a Chicago company, two new wells were recently struck, each of which yield seventy barrels of green oil daily. One of them is owned by Messrs. Hess & Dickey, and the other by Mr. H. Howell.

About a week ago Messrs. Baldwin & Beechfield struck a new thirty-five barrel well on Shaffer run, near Oil City.

The well recently struck on the Porter & Bliss tract, West Pithole, is now reported to be producing thirty to forty barrels daily.

On Monday a new well was struck on the Hancox farm, about two and a half miles south of this city. It has been pumped for a few hours, and has produced a little oil of a dark green color.

SLACK WATER NAVIGATION.

Monongahela Slack Water Navigation Company—Annual Meeting—Report of the President, Secretary, Treasurer and Cargo Inspector.

The stockholders of the Monongahela Slack Water Navigation Company held their annual meeting at the office of the company on Diamond street, yesterday, Thursday, January 13, 1870, at 2 o'clock P. M.

The annual reports of the President, Secretary, Treasurer and Cargo Inspecto, were submitted.

General Moorhead, the President, in his report, reviewed the business of the years and referred to the extensive shipment of coal during the first six months of the year, which was the largest ever made in that time. The shipments amounted to over 34,000,000 bushels, or an average of over 7,000 tons per day. Reference was also made to the Monongahela Valley Railroad project. and it was asserted that the Navigation Company was not opposed to the enterprise. It was contended that it would not interfere with the river transportation, but that the navigation company would be benefitted by the increased facility thus afforded in the impetus given to development in the sections of the country through which the road would pass.

From the annual report of B. L. Wood, Jr., Cargo Inspector, we obtain the following statistics concerning the business transacted during the year ending December 31, 1869. The receipts were as follows:

	Tons.	Tonnage Tax.	Total.
Coal and Slack...	$104 936 61	$14 492 44	$119,429 05
Freight, etc......	72.064 36	3,880 54	75,945 60
Passengers......	18,299 63		18 299 63
Totals..............	$195 300 60	$18,375 08	$213,273 68

The receipts at the several locks were as follows. No. 1, $75 382 66; No. 2 $72,275 67; No. 3, $30,739 03; No. 4, $36,391 75; No. 5, $1,755 45; No. 6, $7,147 12, making a total as above, of $213,573 78. The trade of Pool No. 1 is shown as follows: Number of boats, 3,891; number of flats, 4,593. making a total of 8,484 The number of clearances issued eastward were 2,947, and westward 5,151, a total of 8,098 during the year. In comparing the receipts of 1869 with those of 1868, the following increase is shown over the latter: On coal, $13,560 23; on freights, $11,171 91; on passengers, $1,276 56; making a total increase for the year of $26,008 70.

The amount of classed freight shipped eastward from Pittsburgh during the year aggregated 34,116,867 pounds, and the amount shipped westward to Pittsburgh to 19,170,376 pounds—a total of 53,287,243 pounds.

The total number of passengers carried during the year by the boats navigating the slackwater was as follows: Through passengers, 20,593; way passengers, 97,737; number of locks, 161,674; to Davidson's, 6,988; to Geneva, 3,930. Total tolls, $18,299, 63, showing an increase over 1868 of $1,276 56.

The coal shipments for the year were as follows:

	Bushels.
Pool No. 1..............	8,868 900
Pool No. 2..............	29 129,800
Pool No. 3..............	8 988,400

Pool No. 5..............	23 600
Total..................	52 512.600
Total for 1868........	45 301,000
Increase in 1869......	7,211,000

DRAMA UNDER DIFFICULTIES.

Hamlet in Massillon.

An amusing incident is related in connection with the opening of the new Opera House at Massillon, Ohio, which occurred a few days since. The story runs thus: The inauguration of a place of amusement being something new in Massillon, and the building being one of which the citizens might well be proud, they resolved to celebrate the occasion in a fitting manner. Mr. Edwin Adams was engaged for the sum of $250 to play Hamlet on the opening night, and when the appointed time arrived he took the cars from Chicago, where he had just concluded an engagement. When he arrived at Massillon he was somewhat surprised to find a large concourse of citizens, accompanied by a brass band, assembled at the depot, and it was not until a Committee of gentlemen waited on him and conducted him to a carriage, which was drawn by four horses, and a procession formed, headed by the brass band, that he learned the cause of the assembly. In this way he was escorted to the hotel, where he was kindly cared for until the hour for repairing to the Opera House rolled round, when the carriage again drove up and preceded by the band, he was conducted thither. On passing behind the scences we found things in a very crude state. There was no property and consequently no property man; no scene shifter and no supernumaries. Matters were arranged, however, and when the time for raising the curtains arrived, it was ascertained that there was no signal bell. The "grave digger" was dispatched to procure that very necessary article, and soon returned with a large dinner bell. The signal was given, but the curtain did not go up, for the simple reason that there was no one to pull it up. The ropes were manned by Julia and Hamlet, and a strong pull was made, when the curtain rose slowly. At this juncture the leading man of the town, who occupied a private box. arose and addressed the audience, inflicting upon them a speech of one hour's duration. The curtain then went up, Hamlet and Julia being reinforced by the ghost. The piece progressed finely under the circumstances, Ophelia being compelled to play the Queen, until the fifth act, when it was ascertained that there was no skull. Hamlet without a skull was a role Mr. Adams had never played and he insisted in having something to represent Yorick's crainum. The ghost was accordingly dispatched to a physician to procured a skull. After a brief absence he returned with an entire skeleton of a man, which he handed to Mr. Adams, who looked at it in amazement, and exclaimed franticaly "My God man, how can I say 'Alas poor Yorick' with these shin bones dangling about my legs." The grave digger was commissioned to procure the much needed skull, and happening to be a member of a certain society where he knew there was a large skull and cross bones, made of wood, he soon returned with it and the play went on, Mr. Adams while speaking his lines relating to Yorick, holding the large wooden skull and cross bones with both hands.

Amusements.

OPERA HOUSE.—Mr. Emmet, the German comique, whose engagement in this city during the past two weeks has been an unprecedentedly successful one, will, we regret to say, close that engagement this evening. Mr. Emmet came to this city a stranger, and in a line of comedy entirely new, not only here, but everywhere, and since his first appearance he has played to full houses. During his stay in the city he has made many friends, who appreciate him not only for his remarkable talent as an actor, but for his courteous, gentlemanly bearing as a private citizen, and should he ever return he will be most heartily welcomed. "Fritz" will be played at the matinee this afternoon, and for this evening "Fritz" and "Jack Shepard" will constitute the bill.

ORPHANS' FAIR.—The fair in the basement of St. Pauls Cathedral continues to be well attended, and there is a lively interest manifested in the articles to be disposed of by chance and otherwise.

Live Stock Markets.

NEW YORK, January 14.—Cattle sell rather slowly at unchanged rates, with 1,470 arrived to-day; the quality is poor and none go above 16½c; most of the sales are made at from 13c to 16c, that being the range for a drove of 540 of J. T. Alexander, 6¼ and 6¾ cwt Ills. cattle; a car little Michigan steers, 5¼ cwt., averaged 12 cents. Arrivals of sheep, 4,400, and the market a little stronger but slow: a car of 74 pound poor Ohio sheep sold at 5c; a car of 80 pound Illinois, 6¼, and a car of 86 pound Ohio at 7c. Hogs scarce, barely 6 cars arriving today, still they go slowly at 9@10c alive, and only one car was sold; 190 pound Ohios bringing 10 cents. Dressed dull at 12@12½c; western dressed 11¼@11¾c.

MEMPHIS, January 14.—Cotton quite firm at 23@24c; receipts 2,516 bales; exports 3,721; receipts of the week 10,581; week's exports 7,251; stock 1,836. Flour dull at $4,50@5. Corn weaker at 90c. Oats firm at 68c. Hay dull at $25@26. Bran scarce. Lard dull at 18@18½c. Bulk Shoulders 11½c.

It will be seen from the accompanying financial statement that our indebtedness has increased during the year only $7,122 11, notwithstanding the fact that we have issued to Wm. Smith, Esq., in payment for water pipes $33,000 in Water Bonds, also for the Park Commission $33,000, and also sold $4,500 Sewerage Bonds making in all $70,500 in bonds during the year.

The large amounts of notes in bank paid during the year will account for the small increase. The city begins the new year, 1870, with no notes in bank, and $47,068 85 delinquent taxes in the hands of ward collectors.

Your honorable bodies will have observed also that a large amount of the bonded indebtedness of the city fell due January 1, 1870. At a former meeting of your honorable bodies, a resolution was adopted authorizing your Finance Committee to dispose of the Government securities held by the city, and the proceeds to be applied to payment of said maturing loan; also an ordinance was adopted at the same time authorizing the issue of "Renewal Bonds" to meet the deficiency, and the work is now going on, the details of which will properly belong to the next annual report.

In connection with this I desire to suggest to your honorable bodies the propriety of making provision to meet any portion of our indebtedness falling due, in sufficient time to enable us to be prompt in settlement with the holders thereof, thereby giving satisfaction, and not only that, but enhancing the credit of the city.

Your former Controller, in his last Annual Report, called the attention of your honorable bodies to the "loose system under which all monies collected for special assessments were paid out, without being subject to the scrutiny and inspection of any of your committees or of the Controller."

I here beg leave to remark that I have at present under consideration a system which contemplates that all monies collected, whether for regular tax or special assessment, shall go into the City Treasury, and be paid out only on warrants duly registered and countersigned, and will report it to the Committee having in charge the revision of the City Code in due time, so that it will come from the Committee for your examination and action.

I need hardly say, in conclusion, that the room now occupied by your Controller is not adapted to the wants of the business to be transacted, and rapidly accumulating books, papers, &c.

The Controller is by ordinance the proper custodian of all the records, documents, &c., belonging to the City, and it would seem proper that there should be a vault in connection with the office. At present, in consequence of the small capacity of the safe in use, we are obliged to keep nearly all the Contracts, Articles of Agreement, and other important papers, in a wooden "Book Case."

I desire to acknowledge my indebtedness to your former Controller, R. B. Francis, Esq., for kindness shown me, in assuming the duties of this office.

Respectfully submitted,

W. H. PORTER
CITY CONTROLLER.

OFFICIAL PAPER
Of Pittsburgh, Allegheny and Allegheny County.

SATURDAY, JAN. 15, 1870.

PETROLEUM at Antwerp 60½f.

U. S. BONDS at Frankfort, 92.

GOLD closed in New York yesterday at 121⅞.

KANSAS is perfecting her ratification of the XVth Article, and Ohio reconsiders her rejection, and intends to ratify, her Senate having already voted in its favor. The current month will doubtless see the new article finally incorporated into the organic law.

HON. SIMON DRUM, Mayor of Allegheny, yesterday retired from office, giving place to his successor, A. P. CALLOW, Esq. Mr. DRUM administered the affairs of his office with marked and decided ability, and proved an excellent officer, worthy the esteem and confidence of all good citizens. We trust he may again be called from retiracy to serve the people. Mr. CALLOW, his successor, is well and favorably known throughout both cities, and we can safely promise that he will make an efficient, capable and honorable public officer.

A CITY JOURNAL, which yesterday morning accused the "Ring" of being short in its official accounts of the public monies, owes it to the public to explain its meaning. What is meant by the "Ring?" Who are the defaulters? Does our cotemporary know? Is it too timid to say? Or would it damn by innuendo, when it has not the courage for a bare-faced lie? Unless it speaks plainly, and tells the whole truth, or retracts the slander, the public will continue to regard its management as not more conspicuous for falsehood than for every other vile accomplishment in scoundrelism.

THE NEW COUNCILS OF ALLEGHENY organized yesterday by electing JAMES MCBRIER, Esq., President of the Select branch, and the selection of Mr. HENRY WARNER as presiding officer of the Common Council. Mr. McBrier has for several terms presided with grace, ability and fidelity over the deliberations of the body that has honored him with a new lease of office. Mr. WARNER has been a member of Council during the past year and the mark of respect paid him by his fellow members was fitting and worthy. Mr. ROBERT DILWORTH was re-elected Clerk of the Common Council, and Mr. J. R. OXLEY similarly honored in the Select branch. Both have proven very capable, able and efficient officers, and we are glad that they have been continued in their places.

REPUBLICANISM is not yet dead, either in Lancaster or in our Northwestern counties. The day is not far off which will show that a most corrupt and shameless Coalition against the Republican party may have, in those districts, a few apologists, but that the Republican masses are sound at the heart. They will mark the Coalitionists with an indelible brand. The people of Erie, Crawford, Butler, Lawrence, Mercer, Washington and Lancaster will never again recognise any of the renegades who have been false to their trusts. Each and all of these fifteen traitors have forever absolved their Republican constituents from the duty of supporting any nomination, either of themselves or of their abettors and apologists. Brand them, and turn them loose!

AN HONORABLE DECLARATION.

The Harrisburg *Telegraph* of the 13th says: "We understand that Mr. MACKEY was confidentially informed yesterday morning that fourteen Republican members would bolt the caucus nomination (exactly the number), and that it would require four Democrats to secure his election, which his informant was ready to procure at a stipulated price. Mr. MACKEY replied: "Sir, I WOULD RATHER BE DEFEATED THAN ACCEPT AN ELECTION BY SUCH MEANS. I SHALL NOT SPEND ONE CENT TO PURCHASE A DEMOCRAT OR REPUBLICAN." This is the language of Mr. MACKEY, and, as a sincere Republican, we thank him in the name of that party for his firmness. That Mr. MACKEY could have easily procured the votes of four Democrats is not doubted by any living man; yet he refused to accept office at the price of bribery."

THE DIFFERENCE.

If the Republicans of Pennsylvania had been squarely beaten last October, on the popular vote, and in the regular choice of a Legislature, there would have been no whimpering along our line. Republicans always abide the result of a fair contest, like men. But that—after having fairly swept the Commonwealth, year after year, with regular and decisive majorities—after having, as we thought, chosen a square Republican majority in the Legislature, expressly with a view to the inestimable importance of controlling the next apportionments of the State—it is too mortifying, too shameful, too infamous that the Republican party should be swindled out of its majority, by this rotten coalition of a baker's dozen of our traitors striking hands with the enemy. Was this the entertainment to which we were invited? Was it for this that the Republicans of the Commonwealth have toiled and sweat?

THE PROGRAMME.

On the 10th inst. we exposed the entire programme, of the most corrupt coalition ever known in Pennsylvania politics, for the overthrow of the Republican ascendency so bravely fought for, and so fairly and honorably earned in this Commonwealth. Events have thronged fast upon us to prove the accuracy of our predictions. On the 11th two recreant Republican Senators took a step as agreed upon and handed over the majority to the coalition. On Wednesday, the 12th, a fair Republican nomination to a State office was treacherously defeated. All the committees seem to have been constituted to shield the coalition and its friends from the exposure of their real motives. There will be no Treasury Reform, no investigations into any charges of official misconduct. The coalition will smother all enquiries with the silence and gloom of the grave. Next week, another Republican Senator will be expelled from his seat, and this also given to a tool of the coalition. The Philadelphia police-bill will be defeated, and the money, now said to be lodged for that purpose in a bank at the Capital, will be divided among the corrupted Republican members. The Democracy are well enough paid in regaining a voice in the State Government.

Thus, after twenty years of almost uninterrupted sway over Pennsylvania, the conquerors of the Democracy are beaten by a dirty and venal intrigue. As we march out the thieves march in again! God save the Commonwealth! We fear it has fallen into rascally hands!

THE CARE OF STATE FUNDS.

We must frankly confess that the most admirable feature, in the bill which Representative WHITE, of this county, has introduced in the Legislature, is to be found in the opening clause of its third section: "*Until a proper and sufficient treasury is provided by law at the seat of State Government,*" the Treasurer is empowered and required to place the State funds on deposit with the banks, etc. It is earnestly to be desired that, at the earliest possible moment, a "proper and sufficient treasury" *should* be provided, and it is well that our Representative, by this effective endorsement of an admitted necessity, has given to the idea its just place in the public mind. Its practical adoption at this session may be too much to expect, although recent events have more than ever illustrated the need for the most stringent provisions to ensure the safety of the public monies. Our masters, of the Coalition, are not likely to look kindly upon any proposition to limit their discretion in the use of the immense sums to which they are about to have access; they would certainly strangle most unceremoniously the suggestion that these monies should be safely locked up out of their reach.

But, if the day ever comes when the Republicans of Pennsylvania shall regain that control of the State affairs which, through a base treachery, is now lost to them, they will be certain to inaugurate the most thorough reforms in the Treasury system. Until then, the people should understand that no reforms whatever need be expected. It does not suit the purposes of the Coalition to impose any fresh restrictions upon their abuse of the Treasury, which they have just stormed and captured from the Republican party. That Coalition has purposes of its own to be served, and will defeat all propositions to array new safeguards about the present system. There are wealthy "backers" to be repaid, the expenses of this and of former elections to be made good, more "slips" to be engineered, and friends in every quarter to be rewarded.

We beg our friend WHITE, and Republicans generally, therefore, not to delude themselves with the idea that any measure like the bill now before us will be enacted by the Coalition, unless its Democratic members shall play false to the Republican renegades. The reform of the Treasury would be ruin to the latter: what share they are to give to their Democratic partners has not yet transpired. We fear the defeat by this Coalition, of any and all measures which propose in any way to restrict the largest liberty of the Treasurer elect, under the old system which he thoroughly understands.

If, however, there should be a few Democrats in the Legislature, like C. R. Buckalew, to unite with Republican members in an efficient and complete revision of the Treasury system, in the interests of all the people, that salutary policy of reform may yet be realized—and now, when it is likely to be more than ever demanded by circumstances. Otherwise, the Coalition of corruption and treachery will have accomplished their purpose, seizing on the Treasury and rioting in the public plunder, in defiance of all efforts to curb their license.

—Mr. WHITE's bill is in itself an excellent one. It requires a Treasurer's bond of $300,000, gives him a salary of $5,000, and provides, in the absence of a proper and sufficient sub-treasury, for the deposit of the public funds with banks under suitable regulations and for the profit of the State. We have only to regret that no such measure can, for reasons above stated, have the remotest chance for passage under the rule of the existing Coalition.

RELIGIOUS INTELLIGENCE.

The *Churchman* contains quite a lengthy account of Bishop Kerfoot's visit and labors in the Maryland Episcopal Diocese, not long since. Christ church, West River, Anne Arudel county, was consecrated by the Bishop with impressive ceremonies. The discourse at the close of the Ante-Communion Service, was both interesting and instructive. The audience was large and attentive. At the close of the sermon the Bishop confirmed twenty-five persons by the "laying on of hands." The church is a semi-Gothic structure of fine proportions, neatly finished and tastefully furnished, and was erect mainly by the munificence of a devoted brother, in memoriam of a lovely daughter. The success crowning the efforts of the parishoners of Christ church is the more creditable because they had been straitened in pecuniary matters by the late war, being on the border.

Rev. Baron Stowe, the distinguished Baptist minister of Boston, has left a fragrant memory. It is said his congregations were probably the largest in that city. He upheld Mr. Knapp in his great revival through the winter of 1842. The work was chiefly at his church. Four hundred seekers were on their knees at once, filling the spacious broad aisles to the door.

The Howard street Methodist Sunday-school, San Francisco, California, has eighty-three Chinese scholars and forty-two teachers—a gain of over *forty per cent.* in four weeks.

Rev. E. B. Snyder, formerly pastor of North Avenue M. E. church, Allegheny City, has been appointed by Bishop Ames, pastor of Grace church, at Richmond, Indiana.

Over a hundred and seventy-five conversions occurred during the late revival meeting at Mt. Bellingham church, Massachusetts, under the ministrations of Mrs. Van Cott, the lady Methodist local preacher.

The sale of pews of Beecher's church, Tuesday evening a week, realized fifty-seven thousand dollars. It is stated that Beecher's salary has been increased from twelve thousand dollars to twenty thousand dollars. This erratic divine thinks if the question of woman's rights is to be determined by quoting the Old Testament, it is the last one that should be decided for us by an ancient Sennitic nation and a King who had over seven hundred wives. *Zion's Herald*, in answer, claims that the best description of a true wife is the last chapter of Proverbs by Solomon.

The Boston Young Men's Christian Association recently held a grand Fair before the Holidays, realizing nearly thirty thousand dollars for their building fund. They didn't have any raffling, but the *Advance* accuses them of indulging in a "grab box and such little worldly contrivances."

"Rev." Matthew Hale, author and so forth, started on his ministerial career at the age of eighteen as a Universalist minister, and since then has been Baptist, Episcopalian and Dutch Reformed! The next move is not stated by the writer to whom we are indebted for this "juicy" item.

Elder Evans and twenty-five of his Shaker brethren gave an entertainment in Boston, recently, illustrating their songs and other exercises. Charge fifty cents a head! Disinterested, eh!

Burnell, the well known lay preacher, has just started for California. The Superintendent of the Union Pacific Railway gave him passes, saying that he (Burnell) "is a lesson to doubting Christians." Mr. Pullman also gave him sleeping passes. Mr. Burnell expects to spend a week in every town in California to labor for the cause of Christ.

The *Cumberland Presbyterian*, referring to the jubilee for Old and New School reunion, after a separation of thirty-two years, says that Cumberland Presbyterians may well "make it a year of Jubilee to us, because God has *kept us together*."

The Primitive Baptists of Conecah, Alabama, resolved and recommended to the churches in their body to hold no members in fellowship who avail themselves of any law made by human legislation to avoid the payment of their just debts.

Rev. De Witt Talmage says, let us all go to preaching. Peter was never a sophmore, nor John a freshman. Harlan Page never heard that a tangent to the parabola bisects the angle formed at the point of contact by a perpendicular to the directrix and a line drawn to the focus. He says let us find our work. *You* preach—*you* give a tract—*you* sing a song—*you* teach a Sunday school class, etc.

We are indebted to the *Independent* for the reported rumor that at the late annual meeting of Rev. H. W. Beecher's church, it was decided by a vote of two-thirds of the members present, not to require of candidates for membership assent to the Confession of Faith, but only to the Covenant. The subject called forth an animated discussion. At the end of the debate, Mr. Beecher spoke strongly in favor of the proposition, saying that there were good men who were Universalists, or who otherwise varied from the creed, who were excluded by the present rule.

Archbishop Purcell, of Cincinnati, is now regarded as being strongly in favor of the Pope's infallibility, though he said in the celebrated debate with Alexander Campbell: "No enlightened Catholic held the Pope's infallibility to be an article of faith. *I do not*, and none of my brethren, that I know of, do."

The *Independent* says Dr. McLeod, of New York City, who was foremost in expelling George H. Stuart from the Reformed Presbyterian Church, for irregularities in music, at a wedding in his church, several pieces of music were performed on the abomination called an organ.

It is gratifying to note that there are more candidates for the ministry, applying to the Presbyterian Board of Education, than at any time since the year following the revival of 1858.

The *Christian Intelligencer* thinks at no time in the history of the Reformed (Dutch) Church were its prospects of growth and enlargement more encouraging. Nine new churches were organized last year, and if the Board of Domestic Missions had been in possession of the necessary means the number would have been much larger.

A correspondent of the *Advance*, speaking of the preaching of Dr. Storrs in the Brooklyn Opera House, says: For twenty years the world has known Dr. Storrs as a splendid rhetorician, "adorning the doctrine" with most sumptuous embellishments of eloquence and poetry and learning, and tending sometimes, in the exquisiteness of his style, to pass beyond the sympathy and appreciation of plain people. Of late years, however, he has adopted a plainer and homelier style, and cast aside the use of manuscripts. It is said the Brooklyn Academy of Music is now filled every Sunday to the roof.

The Beach street Presbyterian congregation, Boston, swarm into the building vacated by the Springfield street Congregational church, where it disbanded. The house was built and owned by one man, and he sells it now to the Beach street colony.

THE COALITION OF TRAITORS.

Opinions of the Republican Press.

[From the Washington Reporter.]

The *Reporter*, published in the Legislative and Senatorial district in which Mr. Irwin resides, denounces in fitting terms the "bolt" of Republican members of the Legislature. The rumored "bolt" has since taken place, by the assistance of but one of the members from that district, Mr. Buffington; the other three, Messrs. Vankirk, Shurlock, and Senator Rutan, representing the immediate home of Mr. Irwin, voted for the Republican nominee of the party. The *Reporter* says:

The latest advices from Harrisburg indicate the probability of a "bolt" from the Treasury caucus. * * We all know what a "bolt" means under such circumstances, and just what it will amount to. We are all well aware, likewise, what fusion with the Democracy comprehends.

While we were bitterly opposed to Mr. Mackey's re-nomination, now that it has been effected by a Republican caucus we are willing to submit. No manner of good can be accomplished by a "bolt," and we hope sincerely that no sane Republican will seriously think of joining hands with the Democracy. The process contemplated is violence and revolution, and no adequate reason or cause exists to justify a resort to such measures. * * If members have failed in their duty, and violated their pledges, let them be left to their constituents for punishment. The commission of another wrong will not set the matter right. Although personally opposed to the nominee, and having fought him in the bitterest manner, we say now that he has been regularly chosen by the Legislative caucus, and should be duly elected. We do not think that any man will be justified in bolting the nomination. We *know* he will not be sustained in making any sort of combination with the common enemy.

[From the Oil City Times.]

The Pittsburgh GAZETTE of January 11 contains a severe attack upon those Republican members of the Legislature who, it is supposed, intend to form a coalition with the Democrats in the election of a State Treasurer, &c., and hints that Lowry is to receive the support of the Democrats on his new county bill, as a portion of the price of his treachery to the party. The GAZETTE is beginning to discover what has long been known by many, that the promoters of this new county will sell anything and everything they can to carry their point, and the county itself, if obtained, will be found to be the largest sell of all. Selling out to the Republican party would not stagger them in the least, if by so doing they could succeed in consummating their fraud on the people of Venango, Warren and Forest counties. If the GAZETTE and others have discovered that the upholders of the new county were the foremost prosecutors of Mackey, it may be the people of the three counties above mentioned will find friends who will see that they are not plundered of their territory in defiance of all constitutional requirements.

[From the Erie Gazette.]

There is no older, stauncher and more influential Republican journal in Western Pennsylvania than the Pittsburgh GAZETTE. It is the Republican organ of Allegheny county, and from a recent editorial on the canal enlargement, we clip the concluding portion. * * When the Republican press throughout the State talks thus about Senator Lowry, the Republican party of Erie county had better watch him closely.

[From the Philadelphia Press.]

Mr. Mackey had been regularly nominated in Republican caucus; and had a few weak and faithless members of the organization been disposed to recognize the will of a majority, he would have been elected. We cannot understand and cannot justify that conduct which prompts man to take the chances of victory in a party council, and then at defeat turn upon the party and rend it. * * But the worst phase of this contest is the mean advantage these bolters have allowed the Democracy to take of the Republican party. They must have known that the Democracy would not scruple to part with its pledges and principles in order to make discord in the Opposition ranks more prominent. They must have known that any triumph based upon such questionable assistance could not reflect any genuine Republican sentiment. * * The Democracy did not fail to receive the advantage tendered them. They went through the farce of a nomination for Treasurer, and then abandoned their candidate for one opposed to them in politics. Why their apostacy? Why their despicable departure from everything honorable or even partizan? Why did the unscrupulous Wallace instruct his bigoted adherents to vote solidly for Irwin? We fear a truthful answer to these questions would prove alike dishonorable to the bolters and the Democrats.

Unfortunately that answer cannot at present be given, but we shall look for it with anxiety throughout the work of the session, and we call upon all honest Pennsylvanians to keep watch over the proceedings of their representatives. The answer will crop out some time during the session, and of this rest assured. Let us see to whose glory or infamy it will redound.

Mr. Irwin is in no legal, political, or moral sense the Treasurer of Pennsylvania. The Republican party is entitled to the honor of conferring that office. That party is the majority party of the State. When its deserters are taken up and embraced by the minority, in the face of a majority sentiment, the result is no better than a fraud, and deserves the severest censure. Vain are all protests that improper means have not been used to secure his election. Suspicion will not be hushed by so specious a plea. Suppose no Democratic members were bribed. Suppose the hands of the bolters are all clean, how does that justify the splenetic phase of the bolt? How will it satisfy the people who have been cheated out of their candidate? How does it answer the spirit of insubordination and rebellion that lies at the bottom of the bolt? * * The whole method and manner of this election is therefore at sword's point with principle and usage; whether party or general. We do not see how any honorable man can conscientiously abide by such a verdict, judging, of course, by the light thus far furnished us. * * * We know somewhat of the rumors abroad in the State respecting set-ups, trades, compromises, and all that, with Democratic members, for the purpose of defeating certain leading measures of reform. * * But they may have been digested, and we give them as presented by the Pittsburgh GAZETTE of the 10th. How nearly they approximate prophecy let the result prove. * * The fulfilment of this schedule is the danger ahead not only to Republican ascendancy, but the Commonwealth's honor.

[From the Reading Times.]

If the Republicans who bolted the caucus nomination have made any *bargain* with the Democrats, or *compromised* themselves in any manner, by way of returning the favor, they will deserve and receive the condemnation of all the Republicans in the State.

[From the Venango Citizen.]

It is strange that a man of Mr. Lowry's age and physical condition, one to whom Heaven has so mercifully sent unmistakable premonitory symptoms of the probable shortness of his stay in his present field of uselessness, should not devote his time to acts less infamous than those which seem just now to afford him such delight.

Mr. Lowry is, as we understand it, about to cut loose from the Republican party of the Legislature, and submit himself to do some Democratic work, a little too mean for a member of that party of only moderate degradation. Our present State Treasurer, Mr. Mackey, who has received the Republican caucus nomination for another term, is to be opposed by Mr. Lowry and a dozen other bolters. Against Mr. Mackey, as a private citizen or public officer, the shafts of slander can find no vulnerable point. As far as known or suspected he has honestly and ably filled the position which he now holds. But Lowry and his twelve brother Judasses have bolted his nomination and will vote for Irwin, the Treasurer of '68, whom they expect to elect by securing for him the entire Democratic delegation. Why should Democrats desire Irwin's election? To defeat the regular Republican nominee, and demoralize the Republican party in the Legislature. And what price will they pay to secure this desirable end? Vote for any scheme of corruption which M. B. Lowry may originate. * * *

It would be in keeping with the eternal fitness of things that the old man with the white necktie, who is about giving up the political ghost, and this pet swindle, so long and gently nursed by him, should die together, fill a common grave, and repose in a common perdition, political or otherwise, as the case may be.

[From Harrisburg telegrams to Phila. Post.]

The result undoubtedly kills the Police bill, and it will give the seat in the First Senatorial district to Mr. Diamond, the Democrat, and the various contested seats in the House to the representatives of the same faith. These were, without doubt, the considerations by which the successful nominee of the Republican party was to be defeated. The question now on the Hill is: What will be done with the fund which has been lying in one of the banks here, the object of which was to defeat the Police bill? Senators Lowry and Kerr and Representatives Ames, Bowman, Buffington, Coray, Craig, Godschalk, Herr, Leslie, McCracken, McCreary, Reinoehl, Wheeler and Wiley were the Republican members who voted with the Democracy.

General Irwin arrived at the capital last evening, having been preceded but a few hours prior by George K. Anderson. * * The excitement over the action of those of the Republicans who joined hands with the Democrats, is intense tonight. They are publicly proclaimed on the streets as renegades and apostates.

[From the Philadelphia Post.]

The election of General Irwin is a surprise, and should be even to himself. The Republican caucus decided that Mr. Mackey should be the Republican candidate, and it is an established parliamentary rule that the caucus binds the party, except in those rare cases where a member feels bound to appeal to the higher law of morals, and take an independent stand. We see no evidence that most of the eleven Republicans who assisted the Democrats to elect General Irwin were thus constrained. * * * It will not do to say that Mr. Mackey represents a corrupt faction unless they can prove it, for they are themselves arraigned before the bar of public opinion for open betrayal of the party, and are suspected of having made a bargain with the Democracy, in which Republican interests are sacrificed.

There seems to be truth in this, else why should the entire Democratic vote be cast solid for General Irwin? Upon the merits of the candidates, surely *some* Democrats would have preferred Mr. Mackey, for we know enough of the Legislature to be sure that he would have been just as acceptable to the opposition as General Irwin. The election of one of the two they could not help, and must have had some substantial reason for making such a unanimous choice.

That reason is very probably the Metropolitan Police bill. It is charged that the eleven Republicans who supported General Irwin agreed, in consideration of enough Democratic votes to elect him, to join in defeating the Police bill. It is not a bill that we approve—we do not now refer to that introduced by Mr. Connell yesterday—for we are opposed to legislative influence with our local affairs. But it is not in this way that it should be defeated, by a secret bargain made between bolting Republicans and frightened Democrats. It is at least entitled to a fair hearing in the Legislature—which, if this charge be true, it will not now receive.

We were not partisans of Mr. Mackey, though we preferred him; not active opponents of General Irwin, though we desired his defeat. But in yesterday's proceedings the evidence was too clear that General Irwin owes his election to the combination of a few Republicans with the common enemy; and that in this union was more or less corruption, no one who has ever been to Harrisburg will be green enough to question.

[From the Lancaster Intelligencer.]

Mr. Lowry is intensely fond of notoriety, and seems to care but little how he excites a sensation provided he can manage to attract public observation. He has been known to preside over a meeting called to present a cane to Andy Johnson, Democrat, and to address an assembly of prospective negro voters on the same evening. He is ready to be interviewed by a Democratic editor, and prepared to repudiate his report of a conversation had over choice champagne, which stood on the manuscript pages of a four column temperance letter, with the ink still wet upon it. He makes professions of political honesty periodically.

[From the Harrisburg Telegraph.]

Every one of the voters has frequently proclaimed, when before his constituents for election, the common party doctrine, "STAND BY THE TICKET," and will do so again whenever a candidate for popular suffrage. Senators Lowry and Kerr were especially anxious for the Republicans to support the ticket when they were candidates, and it was fidelity to party alone, in their respective districts, that gave them the seats they occupy today in that body.

Representatives Ames, Bowman, Buffington, Coray, Craig, Godschalk, Herr, Leslie, M'Cracken, M'Creary, Reinæhl, Wheeler and Wiley, received the support of many Republicans in their districts under protest; and if they had not received the nomination of the Republican party they would not occupy seats in the House of Representatives this session.

We shall take especial care to commend them to the support of that party which they have joined.

It is due to Mr. Ames to state that he bolted on the third ballot, when everybody believed that Irwin had bought his election through.

Several gentlemen have promised us rich developments, which may be expected shortly, and which will furnish employment for the investigating committee.

SECRETARY BOUTWELL has purchased six millions of dollars' worth of bonds for the sinking fund since the 1st instant, which makes that fund $23,045,800, besides $67,433,000 worth of bonds which have been purchased and are held subject to the action of Congress, making the total amount of bonds purchased up to this date $90,478,800 the interest on which, due on the 1st instant, amounted to $1,263,000, and has just been collected. This amount in coin was sold Tuesday at an average premium of 122 30, and the proceeds will be applied to the purchase of additional bonds for the sinking fund.

RECENT observers of the planet Jupiter have noticed the peculiar markings seen on the belts of the planet within the last few months, the rose-tinted prominence floating like cumulus clouds around his large circumference; but the observers at Vassar College have observed some additional white spots. On the evening of the 25th of November, both brown and white spots were seen on the more southern belts, and these were sufficiently well defined to be measured.

THERE is to be considerable difference between the Executive and Legislative Departments of the Government relative to the lease of Samana Bay, especially as it was rather a sharp bargain, driven at the expense of some English capitalists. The opinions of many members of both Houses of Congress are entirely antagonistical to this lease, and they do not hesitate to denounce it.

A WASHINGTON telegram says:

The Pennsylvania delegation is pressing Mr. H. Bucher Swope, of Clearfield county, for United States District Attorney for the Western district of Pennsylvania, in the place of Mr. Carnahan, whose time will soon expire.

HELP NATURE IN DISTRESS.

The value of DR. KEYSER'S LUNG CURE cannot be estimated in dollars and cents. Thousands of people who have used it can testify to its extraordinary merits—some of them far gone with diseases of the lungs and pulmonary organs.

It is without question one of the speediest as well as the most soothing of all lung medicines.

It will cure the worst case of Asthma.

It will cure long-standing cases of Bronchitis.

It will cure spitting of blood.

It will cure a common cough in a few days.

It will cure the worst case of sore-throat in a day.

It will cure catarrh in the head.

It will cure laryngitis.

It will cure chronic pleurisy.

Besides most other diseases of the lungs and pulmonary organs. If any one will reflect over the matter they will find that most of their diseases are occasioned by obstruction in some of the channels that eliminate morbid matter from the system. Dr. KEYSER'S LUNG CURE opens out these channels.

Dr. Keyser's Lung Cure, whilst it removes obstruction, it at the same time gives healthiness and pleasure to the blood, soothes the rough surfaces of the throat and lungs and is withal a wholesome and pleasant medicine to take. It is used with great certainty in the wasting and decay of the powers of the system, and it will impart to all the organs renewed vigor and energy.

The winter months are those which are usually regarded as the most prolific of coughs and colds, and consumptive invalids during the winter are mostly forewarned to keep indoors, for the reason that the cold is apt to produce a tendency in the system to inflammatory action and render those diseases difficult to cure. Dr. Keyser's Lung Cure comes to the aid of distressed nature, helps also to make good and new blood to aid in the restoration and renewal of parts. If all who read this article will but try one bottle of Dr. Keyser's Lung Cure, it will convince them more of the truth of what we say than anything we can write. It combines in it some of the most valuable articles of the *materia medica*, and no one can use it without benefit. Go and see Dr. Keyser at his Great Medical Office, 167 Liberty street. Office hours from nine in the morning until one in the afternoon, and from three o'clock until six in the evening, and seven until nine at night.

THE LIVING MACHINE.

Injure the main spring of a watch and every portion of the works becomes disordered. The human stomach is to the human system what that elastic piece of metal is to a chronometer. It influences the action of the other organs, and controls, to a certain extent, the whole living machine. The comparison may be carried further; for as the weakness and other imperfections of the main spring is indicated on the face of the time-piece, so also is the weakness or other disorder of the stomach betrayed by the face of the invalid. The complexion is sallow or faded, the eyes are deficient in lustre and intelligence, and there is a worn, anxious expression in the whole countenance which tells as plainly as written words could do, that the *great nourishing organ* whose office it is to minister to the wants of the body and to sustain and renew all its parts, is not performing its duty. It requires renovating and regulating, and to accomplish this Hostetter's Stomach Bitters may be truly said to be *the one thing needful*. The broken main spring of a watch may be replaced by a new one, but the stomach can only be repaired and strengthened, and this is one of the objects of the famous vegetable restorative which for eighteen years has been waging a successful contest with dyspepsia in all climates. As a specific for indigestion it stands alone. When the resources of the pharmacopiae have been exhausted, without, at best, doing more than mitigating the complaint, a course of the wholesome and palatable, yet powerful stomachic effects a perfect and permanent cure. In all cases of dyspepsia, the liver is more or less disordered, and upon this important gland, as well as upon the stomach and bowels, the bitters are, with singular distinctness, regulating and reinvigorating every secretive and assimilating organ on which bodily and mental health depend.

ROOM No. 7.

FOR A SHORT TIME ONLY,

PROF. E. S. FRANKS, M. D.,

Lecturer on the Human eye, its diseases and Spectacles, Optician and Oculist, to the New York Hospital, and Eye and Ear Infirmary, with a large stock of his Patented and Improved Spectacles for sale.

N. B. Speciality, disease of the Eye and Ear.

TESTIMONIALS.

Prof EDWARD S. FRANKS, Optician: I take great pleasure in stating that I have used the spectacles you adjusted to my eyes when here, and they have given me most entire satisfaction. I have never before had a pair so entirely suited to my vision and that enabled me to read so long with so little inconvenience.
Respectfully yours,
MILLARD FILMORE, Ex-Pres't U. S.

I have had the Improved Spectacles adjusted to my sight from an examination of the eyes alone, by Edward S. Franks M. D., which enables me to see very clearly, easy, and much better than with any I have heretofore used.
ABRAHAM LINCOLN, Pres't U. S.

We have every satisfaction in recommending Dr. EDWARD S. FRANKS' Improved and patented Spectacles to the confidence of our citizens. He is an optician of rare scientific abilities, and adapts his spectacles with great and remarkable skill to the various diseases of the eye. He selects spectacles for us with the first pair, at the first attempt, which enabled us to read with greater distinctness and comfort than those we already possess. We with great cheerfulness recommend them to all requiring spectacles.
A. G. CURTIN, ex-Gov. of Pennsylvania.
A. L. RUSSEL, Adjt.-Gen. of Pennsylvania
L. M. ROUSSEAU, M. D., Penn street, Pgh.
J. R. DICK, Banker, Meadville, Pennsylvania.

Having had the pleasure of examining Dr. Edward S. Frank's Patent Improved Spectacles, we find them experimentally, really valuable aids to defective vision.

The lenses are ground, polished and centred by machinery, mathematically accurate to produce a truly perfect lens. As such, we recommend them.
John W. Geary, Governor of Pennsylvania.
A. Domenec, Bishop of Pittsburgh.
John Dickson, M. D., Penn street, Pittsburgh.
S. . Sterrett, M. D., (Oculist.) Penn street, Pittsburgh.
James L. McFarland, President Merchants National Bank, Meadville, Pennsylvania.

It gives us much pleasure to say that we have inspected Dr. E. S. Franks' very complete assortment of Spectacles and Lenses, and find them excellently calculated to remedy such imperfections of vision as can be benefited by the Optician.

The material used in the manufacture of his glasses is of remarkable purity and beauty, and adds very much to their value.

We recommend him with cheerfulness to the confidence of all who may require his services.
Hon. Francis Jordan, Secretary of Penna.
C. Setzer, M. D., Harrisburg, Pa.

We have examined what we conceive to be an assortment of Spectacles, manufactured under Dr. Edward S. Frank's Patent, admirably adapted to the various infirmities of that exquisitely delicate organ, the Human Eye, whether the impaired vision is the result of disease, or the natural weakness incident to old age.

We regard the specimens of Dr. Franks the best we have ever seen, and as such recommend them.
Hon. W. W. Hays, Mayor of Harrisburg.
Thomas J. Jordan, Brig. Gen. U. S. A., Harrisburg.

THE

FIRST MORTGAGE BONDS

OF THE

CHICAGO, DANVILLE

AND

VINCENNES RAILROAD.

Total amount to be issued	$4,500,000
Capital Stock paid in	2,100,000
Estimated Cost of Road, (140 miles)	4,500 000
Estimated Earnings per annum	2,639,306
Net Earnings per annum	879,768
Interest on the Loan per annum	175,000
Amount of Bonds per mile of road	18,000
Amount of Interest per mile.	1,260
Amount of Net Earnings per mile	6,284

The Bonds follow the completion of the Road—have the Union Trust Company of N. Y. as their official Register and Transfer Agent—and are sold at present at 95 and accrued interest,

They bear examination and comparison, better, it is believed, than any other now before the public, in the fixed and unchangeable elements of *Safety, Security and Profit.*

They bear good interest—Seven per cent. Gold for forty years—and are secured by a *Sinking Fund*, and First Mortgage upon the road, its outfit and net income, the Franchises, and all present and future property of the Company.

They depend upon no new or half-settled territory for business to pay their interest, but upon an old, well settled and productive country;—assuming that a railroad *built* through the heart of such a region offers better security for both *Interest and Principal* than a road *to be built* through the most highly extolled wilderness or sparsely settled territory.

This Railroad possesses special advantages, in running into and out of the City of Chicago, an important Railroad Center, in running through a line of villages and old farming settlements in the richest portion of the State of Illinois; in running near to deposits of Iron Ore of great extent and value, and over broad fields of the best coal in the State—which mining interests are its monopoly. And besides the local and other business thus assured, there will be attracted to this road the considerable traffic already springing up "From the Lakes to the Gulf;" as with its Southern Connections it forms a Trunk Line 45 miles shorter than any other route from Chicago to Nashville.

These Bonds are therefore based upon a Realty and a Business that a few years must inevitably double—and competent judges say treble—in value.

Governments selling while the price is high pay well if put into these Bonds, and Trust or Estate Funds can be put into NOTHING BETTER.

Pamphlets, with Maps, &c., on hand for distribution.

Bonds may be had directly of us, or of our agents in Pittsburgh,

S. C. TRAUERMAN.

DR. WHITTIER

CONTINUES TO TREAT ALL private diseases, Syphilis in all its forms, all urinary diseases, and the effects of mercury are completely eradicated; Spermatorrhea or Seminal Weakness and Impotency, resulting from self-abuse or other causes, and which produces some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured. Persons afflicted with these or any other delicate, intricate or long standing constitutional complaint should give the Doctor a trial; he never fails.

A particular attention given to all Female complaints, Leucorrhea or Whites, Falling, Inflammation or Ulceration of the Womb, Ovaritis, pruritis, Amenorrhoea, Menorrhagia, Dysmenorrhoea, and Sterility or Barrenness, are treated with the greatest success.

It is self-evident that a physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire greater skill in that specialty than one in general practice.

The Doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases, that can be had free at office or by mail for two stamps, in sealed envelopes. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.

The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the Doctor's opinion can be obtained by giving a written statement of the case, and medicines can be forwarded by mail or express. In some instances, however, a personal examination is absolutely necessary, while in others daily personal attention is required, and for the accommodation of such patients there are apartments connected with the office that are provided with every requisite that is calculated to promote recovery, including medicated vapor baths. All prescriptions are prepared in the Doctor's own laboratory, under his personal supervision. Medical pamphlets at office free, or by mail for two stamps. No matter who have failed, read what he says. Hours 9 A. M. to 8 P. M. Sundays 12 M. to 1 P. M. Office, No. 9 WYLIE STREET, (near Court House,) Pittsburgh.

FINANCE AND TRADE.

OFFICE OF PITTSBURGH GAZETTE, }
THURSDAY, Jan. 14, 1870. }

Unusual dullness prevailed in all departments of finance to day. Gold was steady and strong from 121⅜ to 121⅛, but the market nevertheless has nothing to sustain present quotations but the supposed clique movements. These having sold out, the market is without any support except the usual demand for small operators.

Government bonds were very dull, and new bonds of 1865 or 1868 declined to 114, and 1864s and 1865s to 115¼; 10 40s declined about ⅛ per cent. A very considerable number of holders are now sellers, and from these the European demand is met and a sufficient supply will accumulate in the hands of dealers to advance quotations, should gold in any degree advance.

The stock market is very unsettled, opening dull, declining about ½ per cent, and closing strong, with an advancing tendency. North West declined from 74¼ down to 73¼, but closed strong at 74. Rock Island declined to 104¾ and advanced again to 105⅛@105¼ New York Central opened at 191¼ and closed at 192¾. Cleveland about 90¼. Reading dull at 94@94¼.

Money easier.

NEW YORK, January 14, 1870.

Money easy at 6@7 discount, and demand light. Sterling firmer at 8⅜@8⅞. Gold opened at 121⅜, sold at 121¼ and 122, and closed at 121⅛. Clearances, $36,000,000.

Governments steady; Coupons of '81, 17⅞@18; do '62, 15⅝@15⅞; do '64, 15⅛@15⅜; do '65, 15⅛@15⅜; do new, 13⅞@14⅛; do '67, 14⅛@14⅜; do '68, 14⅛@14⅜. Ten-Forties, 12¼@12⅜. Pacifics, 9⅝@9⅞.

State bonds neglected, except North Carolinas which are active and higher, on telegrams from Raleigh stating that the taxes are being collected rapidly and that the State is likely to pay the interest due April next. Missouris, 87; Tennessees, 54, new 47½; old North Carolinas, 42, new, 26⅜; special tax, 27.

Stocks strong with a general improvement in prices. Among railways, New Jersey Central was the chief feature, and advanced from 98⅜ to 100½, with large dealings. This stock is being manipulated for a rise by cliques, and it is their intention to twist those who sold stock short on passage of dividend. North Western common also active and advanced to 74. Rock Island, Lake Shore and New York Central stock and scrip were liberally dealt in at higher prices. Among miscellaneous shares, the Pacific Mail was the only feature, and advanced to 42¼ with increased activity. Express stocks dull and steady.

PITTSBURGH IRON MARKET.

OFFICE OF PITTSBURGH GAZETTE, }
FRIDAY, January 14, 1870. }

There is no improvement to note in the demand for metal, and the market, as might be expected, is very dull and weak, and concessions would have to be made in order to effect sales. The offerings, however, are by no means large, though we are informed that offers have been made this week to sell at a slight reduction, compared with last week, and one buyer informed us that he thought he could have bought at a reduction of $1 per ton. Metal, which last week sold at $36@36½, it is alleged, could have been bought this week at $35½, perhaps $35. Some few of the mills have resumed operations within the last week, though quite a number of them remain idle, and mill men, as might be expected, are very clamorous for a still further decline in the price of metal, and it looks as if their expectations would be realized.

PITTSBURGH MARKETS.

OFFICE OF PITTSBURGH GAZETTE, }
FRIDAY, Jan. 14, 1870. }

The markets, in a general way, are devoid of anything new or important—nothing at least deserving of special notice. The change in the weather has produced a little firmer hog market; to-day there was a slightly improved demand at the Central yards, and buyers took hold to day, to some extent, and paid yesterday's asking prices, say 9 to 9½ for fair to good averages, and prime do at 9¾. Holders are inclined to think that the worst is over; that the bottom has been touched, and that there will probably be an advance, while, on the other hand, shippers complain that prices are still too much inflated, and that in sympathy with the provision market, they do not anticipate any material improvement in prices; but, on the contrary, hope for a still further reduction.

APPLES—Dull and unchanged; regular sales at $2@2,50 and $4 per bbl.

APPLE BUTTER—Quoted at 75@85.

BUTTER.—Continues dull with a large supply but prices are maintained; 30c@36 for fair to choice.

BEANS—Dull; $2,25@2,75 per bushel.

BROOM CORN—Sales at 13@14 cts.

CHESTNUTS—Quoted at $4,50.

CRANBERRIES—Dull; $12@15.

CIDER—Continues dull and nominally unchanged, at $5,00@8,00 per bbl, as to quality.

CHEESE—Is firmer, but not quotably higher. Western Reserve, 17@17½; Factory, 18@18½; New York Dairy, 18½@19; Goshen, 20.

CARBON OIL—Is rather firmer though unchanged, 27 cts., for standard brands, in a jobbing way.

DRESSED HOGS.—The change in the weather will improve the demand, but prices cannot be quoted above 11@11½.

DRIED FRUIT.—Apples quoted at 8 to 9 c. and peaches at 9 to 10 for quarters and 11 to 12 for halves.

EGGS.—Dull but unchanged at 35 for fresh packed.

FLOUR—Continues dull and neglected though prices are unchanged. Spring wheat flours are quoted at $5@5,50 and winter wheat at $5,75@6. Rye flour $5@5,25.

FEATHERS—In better demand and higher, and we now quote at 85@90 to the trade and the usual advance for small lots in store.

GRAIN—There is little or no wheat coming into this market, though the mills are getting all they want abroad; we continue to quote at $1,15@1,18 for fair to choice red. Oats dull and dealers complain that that there is no money in handling them; car load lots are held at 47@48c, while some parties are selling small lots in store at 48—there is little or no difference between the wholesale and retail price. Corn is steady with a continued fair demand and we can report sales of ear at 80@82, and shelled at 85@88. Rye is dull and there are but few, if any, cash buyers at anything over 95. Barley is dull and unchanged, about $1 for good spring.

HAY—The arrivals continue light which, of course, is owing mainly to the bad condition of the roads; and the market is firmer. country wagons at $18@23.

HUSKS—Sales at 3 cents per pound.

HOMINY—Sales at $6,00@6,50 per bbl.

LIME—Sales of Cleveland white lime at $2@2,25 per bbl.

ONIONS—Sales at $2,50@3,00 per bbl, the outside figure for choice.

LARD OIL—Sales of No. 1 extra at $1,43@1,45, and No. 2 at 95.

PROVISIONS—Plain Shoulders 14½; Sugar Cured do. 15½; Ribbed Sides, 17¾ Clear do, 18¾; sugar cured Hams, 20@20½. Lard 17 in tierces, and 18½@18¾ pails. Mess Pork, $31.

POTATOES—Dull, though the arrivals for some days have been light. Small sales at 55@60 per bushel.

POULTRY.—In very light supply and in demand; dressed chickens may be quoted at 14@15c, and turkeys 20@22.

PEANUTS—Quoted at 9@10 cts.

PEAS—Dull; $2,50 per bushel.

SEEDS—Sales of Timothy seed at $3,75@4; and Clover seed at $8@8,25. Flaxseed is dull and cannot be quoted above $2,10.

SALT—Is dull, and Allegheny River brands are quoted at $1,80 by the car load, with the usual advance for small lots in store.

STRAW—Sales at $14@15 per ton.

PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE, }
FRIDAY Jan. 13, 1870. }

The oil market continues very dull, being devoid of the least activity, and, as has been the case all week, there was little or nothing done. Crude was not as firm as it was yesterday, and refined, also, was weak, and if any thing, a fraction lower, with but little inquiry for either, here or elsewhere. The shipments east continue very small, unusually so, and it is not likely that they will be increased any soon, as the great proportion of our refineries are standing idle.

CRUDE.

But a single sale reported, 1,000 bbls seller this month, at 12¾, against 13 yesterday. Spot oil cannot be quoted above 12½, as we are cognizant of at least one lot having been offered at that figure.

REFINED.

As already intimated, was exceedingly quiet to-day, not a single sale reported, and the market was dull, and early deliveries were a shade lower. January was quoted at 30@30¼; February at 30½; and lines throughout the year at an average of 31¾.

RIVER NEWS.

Upper Rivers.

(By A. & P. Telegraph Line.)

BROWNSVILLE, January 14.—River stationary with about thirteen feet six inches water in the channel. Weather cloudy. Thermometer 41 at 4 P. M.

OIL CITY, Jan. 14.—River falling slowly with eight feet water in the channel. Weather clear. Thermometer 32 at 6 P. M.

The river was about stationary last evening with 17 feet 6 inches in the channel by the Monongahela marks. The weather continues very changeable; on Thursday night it froze keenly, while last evening the mercury was up to 40, and it was again raining.

The Messenger and Kate Putnam were both due last night and will doubtless be found in port this morning.

The Victress has withdrawn from the Pittsburgh and Wheeling trade, having remained in it long enough probably to discover that it did not pay. The trouble is she does not carry enough.

The St. Charles, it was said, would leave for Cincinnati some time last night.

The Julia No. 2 from Zanesville, is the only arrival we have to report.

The Belle will depart for Parkersburg to day.

The Maggie Hays has been doing very well the past two or three days and will soon be ready to depart for New Orleans—Capt. B. C. Martin in command. She will be followed by the Messenger, Capt. Jesse Dean.

The Glendale, Capt. Hare, will positively depart for St. Louis to day and passengers and shippers should bear this in mind. She will be followed by the R. C. Gray, Capt. Whittaker.

Business was a little dull at the landing yesterday, though by no means active, nor what we would like to see it.

The Glasgow, Capt. Andy Robinson, will be the first boat out for Nashville.

Capt. H. T. Dexter has gone to Evansville.

The Wauanitd passed Evansville on Wednesday.

The Sallie will not come through to Pittsburgh, but will probably return to New Orleans from Cincinnati.

—Captain John W. Cannon, of New Orleans, was recently interviewed and his opinion sought in regard to the relative speed of his boat, the Bob Lee, and the Natchez. He was reticent, but let out the following: "I suppose the Natchez will beat us." He spoke sarcastically. "She has a better model; I suppose she will beat us. She may pass the Lee, but they will think she is ten miles long before they do go by her." This was spoken excitedly. He was asked. "Do you think it will ever pay to run steamboats expressly for passengers?" and answered, "It may not be for many years yet. The idea is premature. Such a thing would not pay until the country becomes more thickly settled, and travel more general, and then it may pay to run packets exclusively for passengers, and an other class of boats or barges to transport freight." In response to the question: "Do you think a light class of boats could be run, that is, boats that could make weekly trips frips from New Orleans to St. Louis?" he remarked; "They might, but it seems to me that an increase of speed with a decrease of strength would be apt to prove disastrous. Should they strike a sand bar, there would be but little left of them. I think the Robert E. Lee is a good representative of what a Mississippi steamer should be. She combines speed with great strength, and freight with passenger accommodations," He thinks the idea of running sea-going vessels to St. Louis simply ridiculous, and that it never will be done. The correspondent concludes thus: "The Captain is thoroughly practical. He knows that a forty inch cylinder will push a boat faster than a thirty inch cylinder. There is no telling how fast the Lee could run, as she has never been tried, and should she ever be pushed, it is suppesed by many that she could beat the best time ever made. Well, the Natchez will be apt to give her a brush, so we shall see."

—The New Albany *Commercial* says the clerk of Floyd county, Indiana, is making up the transcript for the Supreme Court in the important insurance suit of Hicks King vs. the Esterprise Insurance Co. of Cincinnati. The case is a voluminous one, and embraces some very nice and important points.

—The Little Rock *Republican* says: "During the month past the record of arrivals and departures shows nearly double the number for any previous month in the year, and also double the number shown for the same month in 1868. Business must be increasing.

—The Madison, Indiana, *Commercial* says M. C. Brahany, a young steamboat pilot of that city, on the last trip down of Schneck's Argosy, got off sick at N. O., and there is a painful rumor that he has since died in the hospital there.

—The suit of the Louisville Mail Company against the insurance companies to recover the loss by the collision of the United States and America in the Ohio river, over a year ago, is now in progress before Judge Storer, at Cincinnati.

—The submarine T. F. Eckert is working at the Swallow wreck trying to recover her cargo. She parted one of her largest hawsers trying to pull o t a barrel of molasses, imbedded in the sand.

—Capt. D C. Sheble, formerly of the Stephen Decatur, L. M. Kennett, Ida Handy, &c, is now a contented fruit-grower on his 100 acre farm. St. Louis co. near Creve Cœur Lake, Mo.

—The Cumberland River was rising on Wednesday, with seven feet on Harpeth Shoals.

—The Bellvernon, from New Orleans, passed Memphis on Wednesday.

—The new Memphis and White river packet R. P. Walt, cost $55,000.

—The otw boat Alps was at Cairo on Wednesday.

SPECIAL NOTICES.

☞ CONSUMPTION.

DR. SCHENCK'S PULMONIC SYRUP for the cure of Coughs, Colds and Consumption.
DR. SCHENCK'S SEAWEED TONIC for the cure of Dyspepsia and all the Debilitated Conditions of the Stomach.
DR. SCHENCK'S MANDRAKE PILLS, for Diseases of the Liver or to act as a Gentle Purgative.

All of these three Medicines are often required in curing Consumption, though the Pulmonic Syrup alone has cured many desperate cases. The Seaweed Tonic and Mandrake Pills, assist in regulating the Stomach and Liver, and help the Pulmonic Syrup to digest and search through the blood vessels, by which means a cure is soon effected.

These Medicines are conscientiously offered to the Public as the only safe, certain and reliable remedy for Pulmonary Consumption, and for all those morbid conditions of the body which lead to that fatal disease. Liver Complaint and Dyspepsia are often forerunners of Consumption, and when they manifest themselves they require the most prompt attention.

The Pulmonic Syrup is a medicine which has had a long probation before the public. Its value has been proved by the thousand cures it has made through a period of more than thirty-five years, in all of which time its reputation has increased and the most obstinate skepticism can no longer doubt that it is a remedy which may be used with confidence in all cases which admit of a cure.

If the patient will perseveringly follow the directions which accompany each bottle, he will certainly be cured, if his lungs are not too much wasted to make a cure possible. Even in cases supposed to be incurable, when friends and physicians have despaired, the use of this Medicine has saved the life of the patient and restored him to perfect health.

Dr. Schenck does not say that all cases of Pulmonary Consumption are within the reach of medicine, but he emphatically asserts that often when patients have the most alarming symptoms, such as a violent cough, creeping chills, night sweats, general debility, even to such a degree that they are obliged to lie in bed, and when they are given up by their physician they may still be cured. No medical treatment can create new lungs, but when the lungs are very badly diseased and to some extent destroyed, a cure may be effected by Dr. Schenck's medicines.

Also, in Scrofulous Diseases, these medicines are equally efficient. Dr. Schenck has photographs of a number of persons who have been nearly covered with running sores and now all healed up. This shows its purifying properties, which must be able to heal cavities in the lungs.

In the treatment of Consumption it is of the utmost importance to give vigor and a healthy tone to the system. Hence it is necessary to strengthen the appetite of the patient and improve the digestion. Proper nourishment is required together with such means as will make the food easily digestible. The articles most suitable for the diet of Consumptive patients are designated in Dr. Schenck's Almanacs, which are distributed gratuitously. In general, the most highly nutritious articles are to be preferred, but the digestive organs must be strengthened in order to make either food or medicine serviceable. This requirement is met by the Seaweed Tonic, and for this purpose it was designated

When the digestive powers are put in good order, the food has its proper effect; the system of the patient is invigorated and the lungs begin to exercise their functions in a normal and healthy manner. Then the healing powers of Pulmonic Syrup will effect the cure.

Pulmonary Consumption is almost always complicated with Dyspepsia and Liver Complaint. Schenck's Mandrake Pills are intended to remove obstructions from the Liver and restore its healthy action. They have all the efficacy which is ascribed to calomel or "blue mass," and are warranted not to contain a particle of any mineral poison. These Pills cure the most obstinate costiveness, sick headache, piles, bilious affections, and all other diseases which arise from a torpid or obstructed condition of the Liver. One box of these pills will prove the efficacy of the medicine.

In Consumption the Sea Weed Tonic and Mandrake Pills are invaluable auxiliary medicines They relieve the sufferings of the patient and assist the Pulmonic Syrup in effecting a cure. They have been found useful in advanced stages of Consumption, where the lungs are almost entirely destroyed and all symptoms according to the judgment of the physician indicated a speedy death. The lives of patients who were actually in a dying condition have been preserved for months by the use of Schenck's three great remedies.

Dr. Schenck's Almanac contains a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis, or sent by mail by addressing his Principal Office, No. 15, North Sixth street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Seaweed Tonic each $1,50 per bottle, or $7,50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists. de27:d&F

ORDINANCES.

AN ORDINANCE

Regulating the Appointment of City Printers, the Publication of Ordinances and Advertisements for the City of Pittsburgh, and Fixing the Compensation therefor.

SEC. 1. *Be it ordained and enacted by the Select and Common Councils of the City of Pittsburgh, and it is hereby ordained and enacted by the authority of the same,* That the Councils shall, on the eleventh day of January, A. D. 1870, and annually thereafter, at the time of electing city officers, appoint and designate by name, two daily newspapers published in said city, one of which shall be printed in the German language, in which all resolutions, ordinances and advertisements, provided for or required by the resolutions or ordinances of the Councils of said city or Acts of said city or Acts of Assembly relating to said city, shall be published the number of times legally requisite; and in addition thereto, the said newspapers shall also publish regularly and with reasonable diligence the official minutes of the Councils or a brief summary or abstract of the proceedings of the Councils.

SEC. 2. That the compensation to be paid to each of the newspapers so appointed and designated for all the advertisements and publications mentioned in the first section of this ordinance, shall be one thousand dollars per annum and no more.

SEC. 3. That the Joint Committee of Councils on City Printing shall annually, in the month of January, by advertisement published at least three times in said official newspapers, invite sealed proposals for doing all the job printing which may be necessary or required to be done for the city, and to let and award the contract therefor to the lowest and best bidder.

SEC. 4. That any ordinance or part of ordinance conflicting with the passage of this ordinance at the present time, be and the same is hereby repealed so far as the same affects this ordinance.

Ordained and enacted into a law in Councils, this 11th day of January, A. D. 1870.

Proposals are also invited for the transportation of troops and supplies, during the season from March 20, 1870, to October 31, 1870, from Chicago, Illinois, via Sioux City, Iowa, on through bills of lading, to all the points above Sioux City that are above specified.

Bidders will state the rate, (separately for each month from March 20th to October 31st, 1870, inclusive, the date of starting to determine the rate to be paid, at which they will perform the service from each of the starting points to the several points of destination above-named, as follows:

1st. The rate at which they will transport each officer and soldier (cabin passage to be provided for officers, and for soldiers necessary facilities for cooking their rations, which will be supplied by the Government).

2d. The rate per 100 pounds at which they will transport supplies.

3d. The rate at which they will transport horses, mules, cattle, ambulances, carts, wagons, etc., (troughs for feeding the animals to be provided by steamboat.)

A just preference will be given to parties who own and control boats. Boats will be expected to always give the Government freight the preference, and in no case will be allowed to carry private to the exclusion of Government freight.

The contractor will be required to transport stores by land in the event of failure by water; and all stores received by the contractor for transportation must be delivered at their destination within the year 1870.

Bidders will please give the rate at which they will furnish transportation down stream—though for that exclusive purpose no boat will be required to go up stream unless to bring down at least 160 tons of Government freight. The contractor for transportation from Chicago will not be required to furnish any down stream transportation.

In case the contracting party fails to carry freight as required, the Government reserves the right to furnish the transportation at the expense of the contractor, and nothing herein contained shall be so construed as to prevent the Government from transporting its supplies on any of its own boats.

Bidders are informed that no boat loaded with Government stores will be allowed to go above Sioux City, Iowa, drawing over three and one-half feet water. As no boats will be required to go to points above Sioux City with less than one hundred tons, bidders will state the rate at which they will transport detachments of troops of 100 or more without freight.

Bidders should give their names in full, as well as their places of residence, and each proposal must be accompanied with a bond in the sum of $10,000, signed by two or more responsible persons, guaranteeing that, in case the contract is awarded to the person proposing, it will be accepted and entered into, and good and sufficient security furnished by said party, in accordance with the terms of this advertisement.

The contractor will be required to give bonds in the sum of ($100,000) one hundred thousand dollars.

The party to whom the award is made, must be prepared to execute the contract at once, and to give the required bond for its faithful performance.

The Government reserves the right to reject any or all bids that may be offered.

Copy of blank form of contract both for transportation from St. Louis, Mo., and Chicago, Ill., to be entered into in the event of award, and blank forms of proposals, can be had by application to this office, to the office of the Chief Quartermaster, Department of the Missouri, St. Louis, Mo.; Chief Quartermaster, Department of the Platte, Omaha, Neb.; to Brevet Lieutenant Colonel James M. Moore, Quartermaster, Fort Leavenworth, Kan., and to Captain James Gilliss, Assistant Quartermaster, Sioux City, Iowa

Proposals for transportation from St. Louis, etc., should be indorsed, "Proposals for Army Transportation on the Missouri River, from St. Louis, Mo., etc.," and those for transportation from Chicago, "Proposals for Army Transportation from Chicago, Ill., to points on the Missouri River." and addressed to the undersigned.

By order of the Quartermaster General:

D. H. RUCKER,
Assistant Quartermaster General, United States Army and Chief Quartermaster Military Division of the Missouri.

CARBOLIC SALVE.
The important discovery of the CARBOLIC ACID as a CLEANSING, PURIFYING, and HEALING Agent is one of the most remarkable results of modern medical research. During the late civil war it was extensively used in the Hospitals, and was found to be not only a thorough disinfectant, but also the most wonderful and speedy HEALING REMEDY ever known.
It is now presented in a scientific combination with other soothing and healing agencies, in the form of a SALVE; and, having been already used in numberless cases with most satisfactory and beneficial results, we have no hesitation in offering it to the public as the most certain, rapid, and effectual remedy for all Sores and Ulcers, no matter of how long standing, for Burns, Cuts, Wounds, and every ABRASION of SKIN or FLESH, and for Skin diseases generally.
Sold by all Druggists. Price 25 cents.

CITY AND SUBURBAN.

Yesterday Justice Snyder, of Ormsby borough, committed to jail David Sarbis, for desertion, on oath of his wife, Mary Sarbis.

The attention of our readers is called to an advertisement headed, "Stable For Rent," which appears in another column.

William Kamphan, for whipping his wife, Mary, was committed to jail, yesterday, by Justice Heisel, to answer at Court the information against him for assault and battery.

New Counterfeits.—Well executed counterfeit notes of the new fractional currency are in circulation. These are the first counterfeit of the new series, and well calculated to deceive.

The new police force in Allegheny will not be appointed until after the appointment of the new Police Committee, which will be arranged at the first regular meeting of Councils, on the 29th of January.

Coked Him.—Yesterday Thomas Kelly caused a warrant to be issued by Alderman Taylor for the arrest of John Freeman, for hitting him on the head with a piece of coke. The parties reside in the Ninth ward.

Lost Child.—John Blasey, a little boy three years and four months old wandered away from his home, No. 82 West street, at 9 o'clock yesterday morning and had not been heard of at a late hour last night.

The four persons concerned in the Moscow postoffice robbery were brought to Allegheny, from Erie, Thursday, under charge of United States Marshal Murdoch. Their united terms of service amounts to seventeen years.

In noticing the fatal mistake of the clerk in Sill & Rigg's drug store, in Mifflin township, we left the impression that the labels on the opium and rhubarb were the same. They were not in the wording identical, but were in the style.

The Late Col. Diehl.—The funeral of the lamented and venerable Col. Diehl will take place to-morrow (Sunday) afternoon, at two o'clock. The Duquesne Grays will turn out and discharge the martial duties due the old hero of the war of 1812.

The following gentlemen have been elected Directors of the Fourth National Bank, to serve the ensuing year: Thos. Donnelly, President; Thos. Smith, N. J. Bigley, James M. Bailey, John Mellon, D. H. Toomy, J. S. Willock, Alexander Patterson, W. W. McGregor.

An Error.—We were in error in stating in our notice of the argument on the motion to dissolve the injunction in the Washington and Jefferson College case, that Judge McKennan presided. Judge McCandless heard the argument and issued the order to dismiss the injunction.

Petroleum Laboratory.—Mr. Edward Schmidt, an experienced and practical chemist, is about opening a Laboratory for the purpose of inspecting and analyzing petroleum. We wish him abundant success in the enterprise, and recognize the great importance of such an institution.

Whipped her Boy.—Julia Conway made information before Alderman Moreland, yesterday, against William and Daniel Crowley for assault and battery. They are charged with beating Timothy Conway, a youth of ten summers, in a severe and cruel manner. Warrants issued.

To Let.—The premises on Sixth avenue, one door from Smithfield street, now occupied by Col. J. D. Egan with bookstore and family. This is a part of the large building to be fitted up and occupied this spring by the GAZETTE, and is a very eligible stand for business. Apply at office of GAZETTE.

Erratum.—The name of Mr. B. M. Everson was erroneously printed B. M. Preston in our notice of the grand concert held in the First Baptist Church on Thursday evening. Mr. Everson is a young gentleman of superior abilities as a vocalist, and we regret the compliment intended was marred by printing the wrong name.

The Inauguration.—The Governor's inauguration takes place on Tuesday. Arrangements have been made by the Pennsylvania Railroad Company providing for the issue of excursion tickets to organizations desiring to witness the ceremonies, for five dollars each passenger, the round trip between Harrisburg and Pittsburgh.

We accept as a compliment to our paper and an evidence of its value as an advertising medium that a patron begs us in a note to stop his advertisement of a house to let, for the reason that he is annoyed by innumerable callers. We have stopped the advertisement, and would suggest, if the trouble continues, that he advertises that his house is *not "to let."*

Fine setts of Queensware or Bristol ware of the prettiest patterns, and most delicate workmanship may be obtained at the warehouse of the Keystone Pottery, Messrs. S. M. Kier & Co., proprietors, No. 363 Liberty street. Combining variety with finest finish and durability, the Keystone ware is not excelled by any other in the market. Call and examine the stock.

"Mount Olivet."—The Rev. Geo. P. Hays, of the Central Presbyterian church, Allegheny, has prepared a series of sermons, styled the "Mount Olivet" discourses. The introductory will be delivered in the church to-morrow evening. The preceding sermons on Science and the Bible were exceedingly interesting, which lends additional attraction to the new series.

"To Lets" are more numerous in this city this season than ever before. The number of new houses erected in the suburban districts has rendered the supply of houses greater than the demand, and as a natural consequence rents must come down to a reasonable figure. We know of several cases where landlords have reduced their rents twenty per cent. in order to retain their tenants, and many others will doubtless do the same.

New Coinage.—Specimens of a new silver coinage have just been struck at the United States Mint in Philadelphia—of the denominations of 10, 25 and 50 cents. Three different specimens of each of these denominations have been submitted to the Treasury department for approval. The standard value of the new coins is reduced so as to correspond in actual value with our present "currency," with a view to its *immediate* use instead of the 10, 25 and 50 cent notes.

Alleged False Pretence.—Yesterday Martha Stewart made information before Alderman McMasters, charging a young man of the city with false pretence. The prosecutrix keeps a boarding house on Grant street. She alleges he obtained boarding at her house to the amount of $60 by representing that a third party, well known in the community, owed him $175, for which he exhibited a note, falling due January 1st, but which, it is alleged, was subsequently found to be of no account. Warrant issued.

Personal.—Our good friend, J. W. Barker, Jr., Esq., who has been assisting during the past week in superintending the great closing out sale of dry goods at 59 Market street, left for the East last evening. We understand that the object of Mr. Barker in visiting the East, is to report to the other administrators in New York that the sale is progressing so satisfactorily that it will be completed in thirty days. We know of no young gentleman that possesses better business qualifications than Mr. Barker.

The Allegheny Streets.—The very comprehensive report which we published yesterday, from Civil Engineer Davis, attracted very general attention and praise among the citizens of Allegheny. The public work in his department has been thoroughly well done, and the story of it is clearly and faithfully told. His suggestions in reference to paving, sewerage, tree-planting, &c., are worthy of careful consideration in Councils, who have in the past an earnest of what they can rely upon from this officer in future.

The Next Lecture.

Miss Anna Dickinson appears next on the programme of lectures under the auspices of the Mercantile Library Association. Tuesday evening, January 18th, is the time and the Academy of Music the place. It is generally known that the fair lecturess visited Salt Lake City recently, and while there took observations, of which a Pittsburgh audience are to have the benefit. The lecture has been repeated in several of the eastern cities, under the title "Whited Sepulchres," and created marked sensation. She is very popular in this community, always welcomed, and always received with crowded houses, to which there will doubtless be no exception on this occasion.

MUNICIPAL.

Allegheny Councils for 1870—Organization Yesterday—Mayor Callow Inaugurated—Time of Holding Election for City Officers.

Yesterday morning, in pursuance of law, the Allegheny Councils were organized for 1870. The members holding over and the members elect of the Select branch, together with the members elect of Common Councils, assembled in the Select Council chamber for the purpose of effecting an organization in joint session, and inducting the new Chief Magistrate into office. The lobby was crowded full with spectators, who seemed to take a lively interest in the proceedings.

SWORN IN.

At the appointed hour, ten o'clock, on motion of Mr. Hanna, the joint session was organized by calling Mr. J. C. Patterson, of the Fourth ward, to the chair, and appointing Messrs. G. D. Riddle, of the Second ward, and J. E. B. Dalzell, of the Fourth ward, to act as secretaries.

The list of members elect of the Common Council was called over, when the President stated that as there was no contest for any of the seats, the formality of reading the returns might be dispensed with. This suggestion, on motion of Mr. Hanna, was agreed to. The persons indicated then ranged in semicircular form in front of the President's desk, when Alderman Guyan M. Irwin administered the oath.

The members elect of Select Council were next called up, and the oath administered to them in the same manner by the Magistrate.

THE MAYOR'S INAUGURATION.

Mr. McNeill now moved that a committee be appointed to notify the Mayor and Director of the Poor elect that Councils were prepared to inaugurate them.

The motion being adopted, Messrs. Hugh McNeill and G. Wettach were appointed.

After a brief absence, the committee returned, and Mr. McNeill introduced Mr. A. P. Callow, the Mayor elect.

The oath of office was then administered by Alderman Irwin, after which Mayor Callow made a few remarks, stating that he would to the best of his ability enforce the laws and ordinances of the city, and asking the co operation of the members of Councils.

Col. George Gerst, Director of the Poor, was then introduced, and took the oath of office, as administered by Alderman Irwin.

There being no further business, the joint session adjourned and the members of the Common Council withdrew to their chamber.

SELECT COUNCIL ORGANIZED.

Following the retirement of the members of Common Council, and the adjournment of the joint session, the members of Select Council were called to order by Mr. J. C. Patterson, President *pro tem.* The following is the list of members:

FIRST WARD.	
O. O. Phillips,	H. M. Long.*
SECOND WARD.	
Geo. D. Riddle,	Jas. W. Hall.*
THIRD WARD.	
James McBrier,	John Huckenstein.*
FOURTH WARD.	
J. C. Patterson,	John Megraw.*
FIFTH WARD.	
Geo. Reiter,	Alex Patterson.*
SIXTH WARD.	
Frederick Gwinner	L Peterson.*
SEVENTH WARD.	
Gottleib Wettach,	A. Reineman.*
EIGHTH WARD.	
James Callery,	Geo. Moul.*

The newly elected members are marked with a *, and were all present except Mr. Hall.

The Chair announced the election of a permanent President as the first business in order.

Mr. H. M. Long, of the First ward, nominated James McBrier, of the Third ward, and on motion, the gentleman was elected by acclamation.

Mr. McBrier, upon taking the chair, returned thanks to the members of Council for the honor of re-election, and asked for their continued forbearance and co-operation in the discharge of the duties of the position. He remarked that he had no special subject to urge upon Council, but took occasion to congratulate the members upon the favorable financial condition of the city. He expressed the belief that the same care in the management of affairs would be continued during the ensuing year. He also took occasion to congratulate the members that in all these days of municipal jobs no charges had been made against this body. After again thanking the members for this mark of approval, he announced that the election of Clerk was in order.

Mr. J. C. Patterson nominated Joseph R. Oxley, and there being no opposition he was elected by acclamation.

Mr. Augustus Husselbaugh was elected Messenger by acclamation.

On motion of Mr. J. C. Patterson, the rules governing the last Council were adopted for the ensuing year.

Council then adjourned to meet next Tuesday evening next at which time a joint session will be held for the election of city officers.

Common Council.

After the adjournment of the joint session, the members of this branch assembled in their Chamber, and, on motion of Mr. Hanna, effected a temporary organization, by calling Mr. Hugh McNeill, of the Fourth ward to the Chair, and appointing Mr. N. H. Voegtly, Secretary.

Messrs. George F. Comley of the Third ward; Louis Moul, Fourth ward, and Samuel Reynolds of the Eighth ward, who were absent at the joint session, were now sworn in by Alderman Irwin.

The following members then answered to their names:

FIRST WARD.	
Alexander Hanna,	W. P. Hunker.
SECOND WARD.	
Alfred Slack, Robert Taggart.	Joseph Ashworth,
THIRD WARD.	
S. Hastings, G. F. Comley,	N. H. Voegtly, Thos. Brown.
FOURTH WARD.	
Hugh McNeill, J. E. B. Dalzell,	David Gilmore, Louis Moul.
FIFTH WARD.	
S. S. D. Thompson,	James Gilliland.
SIXTH WARD.	
H. Warner,	Wm. Rowbottom.
SEVENTH WARD.	
Simon Brahm,	A. Herchenroether.
EIGHTH WARD.	
Samuel Reynolds,	Gotleib Seidle.

Nominations for permanent officers were next in order.

Mr. Hanna nominated Alfred Slack, of the Second ward, and Mr. Gilliland nominated Henry Warner, of the Sixth ward, for President. A vote was then taken, resulting in the election of Mr. Warner by a vote of 11 to 10.

Mr. Warner briefly returned his thanks for the honor conferred.

The President now announced that the Clerk of Select Council had notified him of the organization of that body, and that they were ready for the transaction of business.

Mr. Robert Dilworth was then elected Clerk by acclamation.

Mr. G. Husselbaugh, as Messenger, was also elected by acclamation.

The Clerk was notified to report the organization to Select Council.

Mr. Hanna offered the following:

Resolved, That when we adjourn, we adjourn to meet on Tuesday evening, January 8th, for the election of city officers for the ensuing year. Adopted.

On motion, adjourned.

Still in Progress.

The administrators' sale of dry goods at J. W. Barker & Co.'s, 59 Market street, is progressing most satisfactorily, both to sellers and buyers. Some were beginning to think that as no notice of it had appeared for a few days in the local columns, the sale was over, but it is still going on, and is attended by immense crowds every day. It was on account of the impracticability of waiting upon the vast throng that pressed daily into the salesrooms, that Messrs. J. W. Barker & Co. desired no local notice to be taken of the sale for a few days, as their clerks were so busy they could not leave the establishment to go home for their meals. Our readers may rest assured that everything will be sold, and sold too, at the lowest prices, as the business must be wound up. Additional hands have been employed, and such arrangements made as it is hoped, will enable the employees to wait promptly on every visitor. There never was a better opportunity offered for securing the best goods at the most reasonable rates. Goods at this sale are sold for cash only, as the estate of the late senior partner has to be settled up immediately, and the firm will be dissolved.

Brought to Dixmont.

Thursday morning, John Anthony, proprietor of "Anthony's Hotel," near the Union Depot, Erie, was brought to this city by a party of friends, for removal to Dixmont Hospital, to be treated for insanity. He has been insane at intervals for several weeks, and about a week ago, in one of his fits, attempted the life of one of his boarders, and finally severely injured himself. The fit was upon him in a mild form, when he was removed, and it needed considerable coaxing to get him on the train. Before he would start he was led to believe that his presence was needed here to testify at Court in behalf of a friend.

Served Him Right.

We heard an incident related yesterday of an attempt to defraud the revenue, which was successful so far as to cheat the Government out of the revenue, but did not inure to the benefit of the man who perpetrated the fraud. It appears that a certain brewer in this city, some time since, (his brewery is not in operation now,) in order to defraud the Government out of the revenue on a quantity of ale manufactured at his establishment, removed it to the cellar of a house he owned in one of the South Side boroughs. A portion of the house had been leased for a saloon, and a portion of the cellar had been partitioned off for the benefit of the saloon keeper. The outside doors were locked and the old man thought no more about his ale. After it had remained there a few weeks the saloon keeper, who by the way is not an overly scrupulous man, and being a little "hard up," concluded to sell some of the ale, and in order to get at it removed a board from the partition which separated his portion of the cellar from that in which the ale was stored. A barrel was tapped and sold out and then another and so on until the entire stock was exhausted. The brewer, about six months after the ale was stored, wanting to use some of it, went to the cellar, where he found nothing but empty barrels. He at once accused the saloon keeper with stealing, and the fellow coolly admitted the fact. The brewer threatened to prosecute, whereupon the saloon keep impudently threatened to retaliate by informing the revenue officers of the fact, and so the case stands.

Bold Assault.

Thursday evening a bold and dastardly assault was committed on an innocent pedestrian in Allegheny. The victim, Mr. Wm. Johnson was returning from Pittsburgh about seven o'clock, when he was suddenly attacked on Federal street, near the Allegheny Savings Bank, by three roughs who emerged suddenly from an alley in the vicinity. After knocking him down, almost destroying one of his eyes, and kicking and beating him in a brutal manner, they disappeared as suddenly as they had appeared. Mr. Johnson succeeded in reaching his home, 319 Federal street, when he was compelled to call in medical attention. Dr. B. B. Smith visited him and attended to his injuries. The cause of the attack and the villains who were engaged in it are unknown. Mr. Johnson, however, intends having the matter investigated as soon as he is able to be about again.

That Cold Trip.

We published yesterday an account of a man floating down the Allegheny river holding on to a log of drift wood, which was correct so far as the "voyage" was concerned, but we have learned the true version of the embarkation of the voyager, which differs materially from the account given yesterday. A gentleman informs us that while crossing the Mechanics street bridge about eleven o'clock Thursday, he saw a man climb over the railing near the centre of the bridge, but not thinking there was anything wrong he passed on to the Pittsburgh side to his residence which fronts on the river. Just as he arrived at home a lady at one of the upper windows of his dwelling called his attention to the man on the bridge and on looking round he saw him jump into the water. The fellow evidently intended to commit suicide but changed his intentions when he reached the water.

Card.

Wm. Semple, 180 and 182 Federal street, Allegheny, returns his sincere thanks to his friends and a kind and discriminating public, for their very liberal patronage extended to him for so many years, and respectfully informs them of his return from the different markets with a large stock of goods and some extra bargains in fancy and staple goods suitable for the present season, which are now open for inspection, and as usual will be offered at very low prices, thereby rendering all clearance sales unnecessary. During the past season, owing to the great throng many of our customers could not be waited on. In the future, arrangements will be made so that all can be waited on promptly, pleasantly and profitably, by able and experienced assistants, at 180 and 182 Federal street, Allegheny.

Mortuary Report.

The following is the list of deaths in the city of Pittsburgh from the 1st to the 8th of January, as reported by Dr. W. Snively, Physician to the Board of Health:

The causes of death were: Accident, 2; scald, 1; old age, 1; apoplexy 1; debility, 3; cerebro spinal meningitis, 1; croup, 1; pneumonia, 1; whooping cough, 2; congestion of lungs, 1; gastric fever, 1; typhoid fever, 1; scarlatina, 1; meningitis, 1; tuberculosis, 4; still born, 2.

Of the above there were—Under 1 year, 5; from 1 to 2 years, 3; 2 to 5, 4; 5 to 10, 1; 15 to 20, 1; 20 to 30, 2; 30 to 40, 3; 40 to 50, 2; 50 to 60, 1; 60 to 70, 1; 70 to 80, 1.

Males, 11; females, 13. White, 24; colored, 0. Total, 24.

The Good Templars.

The fourth session of the Monongahela Valley District Convention of Good Templars will be held at Elizabeth on the 25th and 26th of January, instant. Grand Worthy Templar Chase will be present throughout the entire session and will deliver a public lecture on Tuesday evening. Miss Knowlton will also speak on Wednesday evening. Each Lodge in the jurisdiction is allowed four delegates, and as the boats are running regularly there is no doubt of a full attendance. The well known hospitality of our friends at Elizabeth is a sufficient guarantee of the cordial reception which will greet the Templars on their arrival. The district embraces Allegheny, Fayette, Westmoreland, Washington and Greene counties.

Caught the Thief.

Yesterday evening four men went into Lawrence McMullen's merchant tailoring establishment on Fifth avenue, and requested to be shown some clothing. While Mr. McMullen was exhibiting his goods two vests were stolen. The fellows then took their departure, taking the vests with them, but made no purchase. After they had been gone some time Mr. McMullen missed the vests, and officers McGrady and Geliston were notified of the transaction. They started in pursuit of the thieves and succeeded in arresting Thomas McMinnamin, who had one of the vests on. He was furnished with lodgings for the night in the lockup, and will have a hearing this morning.

IMPORTANT TO LADIES.

The Great Closing-Out Sale of Fine Furs at Wm. Fleming & Co.'s, Beginning Monday Next, January 17th, to Continue One Week.

We trust that our lady readers and all others interested in the purchase of furs, will not forget that on Monday next the Great Representative Fur and Hat House of Wm. Fleming & Co., 139 Wood street, will commence to sell out their entire stock of furs at any price that they will bring. The sale will commence at 9 o'clock A. M., and continue every day, until 8½ o'clock P. M., except Saturdays, when they will keep open till 10½ o'clock, in order to give an opportunity of visiting the store to those who cannot attend earlier in the day. We have examined the stock to be sold off, and can assure our readers that it is very fine, the assortment being large and the articles of a superior quality and stylish and elegant make. The goods are being marked down to a price that we did not think it possible they could be sold for; but it is well known that Fleming & Co. do not carry any of this kind of stock over to the next season, and all their furs will positively be sold at whatever they will bring. It would seem to us the part of wisdom for those who can possibly spare the money, to go and secure a bargain in ladies' furs. They will be needed before this winter is over, and they will be just as good for the next and succeeding winters, and will only cost half the money if purchased at Fleming's next week, that they would if bought next season, or in some other establishment. The goods are all warranted, and no misrepresentations are ever allowed to be made at this house. Call, therefore, early next week and examine for yourselves.

The National Pipe Works.

The foreman Mr. John Aston, and his assistant Mr. James F. Allen, of the National Foundry and Pipe Works, of this city, have just returned from the east after quite an extended visit among the various extensive pipe works located there. They report that the National Foundry and Pipe Works are as far ahead of the eastern works in the manufacture of pipes, as they were ahead of Pittsburgh in that branch of the foundry trade before the National was established here, which speaks highly for the energy and perseverance of Mr. William Smith, the worthy proprietor of these extensive works. As an instance, it took one of the largest of the eastern pipe works from seven (7) A. M. until one (1) o'clock in the afternoon to cast fifteen (15) tons of pipe, while every day they cast out of one cupola at the works here, from forty to fifty tons of pipe between the hours of six (6) and ten (10) o'clock in the morning.

The capacity of the National Foundry and Pipe Works is one hundred tons per day. Nearly all of the eastern pipe men are corresponding with Mr. Smith for the purchase of the very valuable patents he has on the manner of making pipes.

The Board of Public Works of Chicago were served last year by Messrs. R. D. Wood & Co. and the Warren Foundry Co. of the last, and Mr. Smith of this city, but they very willingly acknowledged that the best pipes they had ever laid in that city came from Mr. Smith. This is only one of the very many testimonials of a similar character Mr. Smith received from his customers last year. Long life to the National and its proprietor.

The Diseases of Winter.

The most fatal diseases that afflict our frail humanity are those which are initiated during the winter months. Rheumatism, neuralgia, and the more dangerous and consequently more fatal maladies of the lungs and respiratory organs are the most prevalent. We often wonder at people for allowing these latter to run on until the lungs or some equally vital parts are involved. Consumption, half the time, means death. Indeed there are many who believe there is no cure for it at all. But why not? The lungs, it is true, are of a peculiar structure and are difficult to cure. Dr. Keyser, a physician of quarter of a century's experience, and a man almost born amongst medicine, prepares two medicines for the cure of this disease, whose action is always sure to cure, and when they do not, it is the exception only which proves the rule. His LUNG CURE stands this day without a rival in the wide world, as the greatest of all medicins for all pulmonary and catarrah maladies. It roots them right out of the system, and does so without even taking you from your ordinary occupation, and in old cases of consumption, we would suggest to the sufferer to try half a dozen bottles of Dr. Keyser's lung cure before abandoning himself to die. DR. KEYSER'S PECTORAL SYRUP is for recent coughs and colds, and has been certified to more than a hundred times as having cured them between sleeping and waking by taking a dose merely at bedtime.

The Doctor's office and consultation rooms are at his new establishment, No. 167 Liberty street.

No. 45 Ninth Street.

Many of our readers are cognizant of the fact that Mr. John Megraw, tobacconist, at No. 45 Ninth (late Hand) street, has on hand a large stock of tobacco and segars, but there are perhaps others who do not know the fact, and it is for the purpose of furnishing them this valuable information that we refer to the matter. We say valuable, and mean it, for whatever is of interest to any man is, in a business point of view, valuable, and how many are interested in the matter of tobacco and segars. Mr. Megraw's stock includes all the best brands of tobaccos and the finest brands of segars imported and of home manufacture. His prices are reasonable and he is an honorable and high minded business man, always gentlemanly, courteous and accommodating to his customers.

Hespenheide's Tailoring Establishment.

Among the most popular and fashionable tailoring establishments of the city, that of Mr. William Hespenheide, No. 50 Sixth street, occupies a high and enviable position. By strict attention to business and careful study of the wants of his customers, Mr. Hespenheide has succeeded in building up a first-class reputation and a large trade. The goods manufactured at his establishment will compare with the best turned out from any merchant tailoring establishment in the city, while the prices are equally favorably. Gentlemen in need of clothing of the best material and make up could do no better than bestow their patronage on Mr. Hespenheide. They will be satisfied in every respect.

The weather has been very variable during the past week, and we have been favored with the extremes of heat and cold, sunshine and rain, to an uncomfortable degree. In striking contrast with this state of affairs is the uniformity which regulates the quality, price and general excellence of the goods manufactured at Leibler's mammoth trunk emporium, the headquarters of which are at 104 Wood street. If you need anything in his line call on Leibler, and get your money's worth.

At Moorhead's, No. 81 Market street, the ladies will find a great variety of lace articles, collars, handkerchiefs, cuffs, kid gloves, sashes, cloaks, loops and ornaments, jet and plated jewelry and an innumerable quantity of fancy articles. Moorhead is also sole agent for the new Roman paper collar, said to be the best fitting in the market. Call at 81 Market street to invest your money.

Youngson's sumptuous confectionery and dining rooms are open daily for the reception of ladies and gentlemen, who desire meals at any hour. Nothing but the best articles are kept on hand and the edibles supplied at the establishment are of the most appetizing character. Suppers are provided for private parties at shortest notice and on the most resonable terms.

Good, healthy, palatable table boarding at four dollars per week at Burns' popular restaurant, corner Smithfield street and Sixth avenue. The tables are always abundantly supplied with the very choicest delicacies of the market. The culinary arrangements at this establishment are perfect. A call at the restaurant will convince the most incredulous.

Use Dr. Pierce's Alterative Extract, or Golden Medical Discovery, for all coughs, colds, bronchial or lung diseases. It arrests and cures consumption in its early stages. Sold by druggists, or enclose three dollars and twenty five cents to Dr. R. V. Pierce, Buffalo, N. Y., and get three bottles, free of express charges.

If you want your hair dressed or frizzled after the latest fashion, a comfortable shave, a luxurious bath or a little skillful cupping and leeching, any or all, go to Williamson's popular saloon, No. 190 Federal street, Allegheny.

Strangers in the city should drop in at the Continental, Fifth avenue, next door below the Postoffice. Everything in the line of edibles will be found there.

Ladies and gentlemen can receive a healthful and invigorating meal, at any hour of the day, at the Continental, Fifth avenue, below the Postoffice.

An Important Fact.

It is an important fact that at Col. J. D. Egan's book establishment, No. 41 Sixth avenue, rare and valuable works may be obtained which cannot be duplicated in the city, or perhaps in any other book store in the country. The Colonel also keeps on hand a choice selection of the standard works of the day; among them Webster's Unabridged, Carpenter's Stair Builder, and others of that class, form an interesting part. Then too, all the magazines, back numbers, and those just issued, may be found on his counters. In short, if you need anything in the book line, call on the Colonel and be accommodated.

In the Cascade Mountains

Of Oregon lies Sunken Lake, twelve miles long and ten broad, with perpendicular walls rising from its edge to the heighth of 2,000 feet. Its waters are supposed to be the best in the world. An enterprising individual, some years ago, leaped into the frightful abyss, tunneled through its eastern wall, conducted the water to the Oregon Brewery, which gives it its name, and proceeded to use it in the manufacture of Pier, Dannals & Co.'s cream ale. This is one of the reasons why this ale is so beautifully clear.
